ELEVATION

Reinforcement Details typical at all locations.

* Epoxy grout n(E) bars in 9" min. holes according to Article 584 of the Standard Specifications.

** 7 - #5 h(E) bars For locations see section B-B.

SECTION B-B

SECTION A-A

Bar n(E)

Bar u(E)

Bar s(E)

NOTES

The cost of epoxy grouting threaded rods shall be included with Reinforcement Bars, Epoxy Coated.

Plan dimensions and details relative to existing plans are subject to nominal construction variations. The Contractor shall field verify existing dimensions and details affecting new construction and make necessary approved adjustments prior to construction or ordering of materials. Such variations shall not be cause for additional compensation for a change in scope of work, however, the Contractor will be paid for the quantity actually furnished at the unit price bid for the work.

Reinforcement bars designated (E) shall be epoxy coated.

All unsound concrete on top surface of crashwall shall be removed prior to placing new concrete. The cost of this work shall be included in Concrete Structures.
