 STA. 1194+24
 2 @ 10' x 8'
 SKEW 12°, 34'

- ① Shoulder Widening for type 1 (Special) Terminals shall be constructed prior to construction of new guardrail. See Standard 630301-04 for Details.
- ② Shoulder Widening shall be seeded with Class 7 Seed after completion.
- ③ No rock, stones, millings, or broken concrete shall be permitted within a vertical distance of 12" from the surface of the finished grade of the shoulder widening.
- ④ Shoulder Widening for Type 1 (Special) Terminals shall not be paid for separately due to an excess of Earth Excavation. Therefore, the application of the Class 7 Seed as well as any other material associated with the completion of the widening shall be considered incidental to the Type 1 (Special) Terminals and no additional compensation shall be allowed.

NOTE: Detail is not to scale but for information only.
