Dear Mr. Berry:

I received your revised soil erosion and sedimentation control plan submittal for the bridge over the north arm of Brewster Creek in un-incorporated Kane County. Thank you for incorporating our comments into the plan, it will improve the quality of protection for the natural resources, both on and off site. This letter and a set of stamped plans located at the construction office on site, will serve to certify that the erosion and sediment control plans meet Technical Standards.

I will visit the site several times during the course of construction to assess compliance with the specifications and will be glad to address specific issues that may arise during the course of construction.

Sincerely,

*Kelsey Musich*
