

IDOT PROJECT LABOR AGREEMENT DETERMINATION

To: Ann L. Schneider, Secretary

From: William R. Frey, Interim Director

Date: November 2, 2012

Re: FAP 330, Contract Number 60P35, Cook County

{January 18, 2013}

In accordance with the Project Labor Agreement Act (30 ILCS 571), it is recommended that a project labor agreement (PLA) be utilized for the above-captioned Project. This recommendation is based on the considerations indicated below.

1) The Project is being awarded and administered by IDOT (i.e., not by another governmental agency).

2) The Project is being constructed using state or local funds only (i.e., no federal funds) {See Attachment A}

3) The overall size, scope, sequencing, logistics or other aspects of the Project make it particularly challenging to manage, and use of a PLA is expected to help assure that the construction work is performed properly and efficiently under the circumstances.

4) The duration of construction activity on the Project is expected to exceed one construction season (i.e., 110 or more working days), or the nature of the Project results in a heightened need for labor force continuity and stability over a substantial period of time.

5) There is a firm construction completion date established for the Project thereby increasing the adverse consequences of any work stoppage or other labor disruption {See Attachment A}

6) The time required to complete the Project is expected to extend beyond the expiration date of one or more existing collective bargaining agreements covering trades likely to be involved in the Project, thereby increasing the likelihood of work stoppage(s) or other labor disruption(s) during construction of the Project

7) In the absence of a PLA, there is an increased likelihood of jurisdictional disputes among unions or of conflict between unionized and non-unionized workers on the Project that could have a potentially material adverse effect on the time, cost, or quality of work performed on the Project

8) This project presents specific safety concerns to the traveling public and a PLA, will ensure labor force continuity and stability, decreasing the length of the safety concern. (See Attachment A)

9) Use of a PLA is expected to result in improved access to skilled labor, improved efficiency, or improved safety performance on the Project

10) Use of a PLA on the Project is not expected to have a material adverse effect on the competitive bidding process.

11) Use of a PLA on the Project is not expected to have a material adverse effect on the ability of the Department to achieve other Departmental goals (e.g. utilization of disadvantaged businesses, utilization of Illinois domiciled businesses, development of competitive vendor alternatives over time, etc.).

12) There are other material considerations favoring or disfavoring use of a PLA on this Project as follows:
(See Attachment A)

Based upon the identified considerations, we recommend that you approve use of a PLA on this Project. Upon your approval, the Department shall undertake to negotiate in good faith a PLA with the relevant labor organization(s), and shall include in all necessary bid specifications and other documents information regarding the actual or form of PLA that is to binding upon all contractors and their employees.

FHWA concurrence in the PLA for the above mentioned contract

Gregory G. Nadeau	12/03/2012
FHWA Deputy Administrator	(see attached approval page)

ATTACHMENT A:

The use of a Project Labor Agreement for Contract 60P35 is consistent with all State and Local statutory and regulatory requirements.

Item 2: This project includes State and Federal funds.

Item 3: Estimated project cost is \$19,000,000.

Any disruption in the continuity of this project due to labor issues would result in delayed deadlines that would cause safety concerns for the travelling public. Lapsing trade contracts during the project would be addressed through the use of a Project Labor Agreement. It is the Illinois Department of Transportation's finding that the large skilled workforce needed for this project can be provided by the union trades involved and is a necessary requirement for a Project Labor Agreement.

Item 5: Contract completion date is August 29, 2014. The work shall be done in three stages. Stage One will consist of working in the Northbound lanes shifting all traffic onto the Southbound lanes. Two lanes in each direction shall be maintained during this stage. Stage Two will consist of working in the Southbound lanes shifting all traffic onto the newly constructed Northbound lanes. Two lanes in each direction shall be maintained during this stage. Stage Three will consist of median work and any other remaining work that needs to be completed. The final configuration will be three lanes in each direction.

Item 8: This project is located right next to the O'Hare airport. There is a lot of vehicular, truck and airport traffic along Mannheim Road. Should a strike of any kind occur which results in a work stoppage, it would cause further impacts to the traffic accessing the airport. Also, the motorists would be required to drive through the construction zone for a longer period of time than what is planned in the contract. While we use all the current standards and devices for our maintenance of traffic, the work zone can be a dangerous place for drivers. Therefore, use of a PLA will ensure we complete the job in a timely manner, the safest for all motorists who travel this route.

Item 12: The union contract expiration dates are as follows:

Collective Bargaining Agreements

- Chicago Regional Council of Carpenters
 - Local 54 Cook, Lake & DuPage Counties 6-1-10 to 5-31-14
- Cement Masons
 - Local 502 Cook County 6-1-10 to 5-31-13
- Construction and General Laborers' District Council of Chicago & Vicinity
 - Road Building Various Local Unions 6-1-10 to 5-31-13
- Operating Engineers, Local 150
 - Heavy, Highway & Underground 6-1-10 to 5-31-13

- Teamsters Joint Council No. 25
 - Local 330 (Elgin) still being negotiated
Under extension agreement
 - Teamsters Local 179 still being negotiated
- Technical Engineers, Local 130 6-1-10 to 5-31-13
- Electricians,
 - Cook, Local 134 6-6-2011 to 6-1-2014
 - Will, Local 176
 - Inside & Service/Maintenance 6-1-2012 to 5-31-2014
 - VDB Agreement 6-1-2012 to 5-31-2013
