SUBJECT: Route Various  
Section 17-00070-00-PV (Highland)  
Madison County  
Contract No. 97686  
Item 133  
January 18, 2019 Letting  
Addendum C

## NOTICE TO PROSPECTIVE BIDDERS:

Attached is an addendum to the plans or proposal. This addendum involves revised and/or added material.

### **1. Revised pages 6 and 17 of the special provisions**

Prime contractors must utilize the enclosed material when preparing their bid and must include any changes to the Schedule of Prices in their bid.

Very truly yours,

Jack A. Elston, P.E.  
Bureau Chief  
Engineer of Design and Environment

By: Ted B. Walschleger, P.E.  
Engineer of Project Management

provisions, and all special details and Highway Standards contained herein and on the plans.

At the preconstruction meeting, the Contractor shall furnish the name of the individual in his/her direct employ who is responsible for the installation and maintenance of the traffic control for this project. If the actual installation and maintenance are to be accomplished by the Subcontractor, consent shall be requested of the Engineer at the time of the preconstruction meeting according to Article 108.01 of the "Standard Specifications for Road and Bridge Construction". This shall not relieve the Contractor of the foregoing requirement for a responsible individual in his direct employ. The City will provide the Contractor the name of its representative who will be responsible for the observation of the Traffic Control Plan.

The Contractor shall furnish, erect, maintain and remove all warning signs, flags, barricades and lights according to Article 107.14 and Sections 701 and 703 of the "Standard Specifications for Road and Bridge Construction", the latest edition of the "Manual of Uniform Traffic Control Devices for Construction and Maintenance Operations", the Special Provisions, and/or as directed by the Engineer.

Articles 107.09 and 107.14 and Sections 701 and 703 of the "Standard Specifications for Road and Bridge Construction" and the following Highway Standards relating to traffic control apply to this contract:

701001	701006	701331	701501	701801
701901	BLR 21	BLR 22		

Broadway/St. Rose Road shall be kept open to traffic at all times. Short-term, daytime lane closures will be permitted along Broadway/St. Rose Road as approved by the engineer.

In addition, the following special provision(s) will also govern traffic control for this project:

SEQUENCE OF CONSTRUCTION OPERATIONS  
TRAFFIC CONTROL AND PROTECTION, (SPECIAL)  
WORK ZONE TRAFFIC CONTROL SURVELLANCE  
FLAGGERS IN WORK ZONES  
CONSTRUCTION AND MAINTENANCE SIGN SUPPORTS  
CONTRACTOR ACCESS  
AUTOMATED FLAGGER ASSISTANCE DEVICE  
EQUIPMENT PARKING AND STORAGE  
LIGHTS ON BARRICADES  
CONSTRUCTION AND MAINTENANCE SIGNS

## **PUBLIC NOTICE**

Each Wednesday, the Contractor shall furnish his schedule for the next week's work and shall post signs at least 24 hours in advance of his work on each street requiring a lane closure. Handbill notices approved by the Engineer shall be delivered to each residence located within the work zone, at least 24 hours prior to commencing work. Notices shall explain the proposed work and request the resident's forbearance of the inconvenience. All

## **REMOVE EXISTING FLARED END SECTION**

This work shall consist of the removal and satisfactory disposal of existing flared end sections according to Section 551 of the "Standard Specifications for Road and Bridge Construction".

This work will be paid for at the contract unit price per each for REMOVE EXISTING FLARED END SECTION, of unspecified type and diameter, including backfill if required.

## **SEEDING, CLASS 1A SPECIAL**

This work shall consist of preparing the seed bed, and furnishing, transporting and placing the seed required to restore all disturbed earth surfaces according to Section 250 of the "Standard Specifications for Road and Bridge Construction".

The Contractor shall guarantee a minimum of 90 percent uniform growth over the entire seeded areas(s). Areas sustaining less than 90 percent uniform growth shall be interseeded or reseeded, as determined by the Engineer, at no additional cost.

This work will be paid for at the contract unit price per acre for SEEDING CLASS 1A SPECIAL.

## **IRRIGATION SYSTEM SPECIAL**

This work shall include all labor, equipment, materials, and excavation necessary for the installation of the irrigation system as shown on the plans and constructed according to Section 561 and 810 of the "Standard Specifications for Road and Bridge Construction," and include installation of tapping valves and sleeves on water mains under operating pressure as shown on the plans according to Section 46 of the "Standard Specifications for Water and Sewer Construction in Illinois."

Additional items required to construct the irrigation system will not be measured for separately, but included in the cost of the IRRIGATION SYSTEM, SPECIAL:

- Water service lines for the irrigation system
- Water tap to the existing main with gate valve
- Electrical service for the irrigation system
- Sprinkler piping mainlines, lateral pipes, and pipe fittings
- Sprinkler heads
- Control valves and access boxes
- Manifold with access panel encasement
- Reduce pressure zone (RPZ) backflow prevention device
- Decorative rock encasement for RPZ device

All other collateral work and incidental items necessary to complete the sprinkler system shall be considered part of the lump sum unit price of IRRIGATION SYSTEM SPECIAL.
