

# Illinois Department of Transportation

2300 South Dirksen Parkway / Springfield, Illinois / 62764

January 3, 2007

SUBJECT: FAP Route 331 (ILL 13)  
Project ACHPP-HPP-TI-4109(001)  
Section 3-2, 8 X-1, 4-2  
Saline County  
Contract No. 98627  
Item No. 111, January 19, 2007 Letting  
Addendum A

## NOTICE TO PROSPECTIVE BIDDERS:

Attached is an addendum to the plans or proposal. This addendum involves revised and/or added material.

1. Revised pages 1 – 3 of the Schedule of Prices.
2. Revised sheet 9 of the Plans.
3. Added sheet 137 to the Plans.
4. Revised pages iii, 9 and 29 to the Special Provisions.
5. Added page 118 to the Special Provisions.

Prime contractors must utilize the enclosed material when preparing their bid and must include any Schedule of Prices changes in their bidding proposal.

Bidders using computer-generated bids are cautioned to reflect any and all Schedule of Prices changes, if involved, into their computer programs.

Very truly yours,

Eric E. Harm  
Interim Bureau Chief  
Bureau of Design and Environment

Revised 01/03/2007

This work shall be paid for at the Contract Unit Price per gallon for WEED CONTROL, NON-SELECTIVE AND NON-RESIDUAL (WETLAND).

**PLANTING WOODY PLANTS**

This work shall be performed in accordance with Section 253, as shown on the plans, and as specified herein.

Plant Material List.

The following trees shall be planted within the limits of the project at the locations as staked by the District Landscape Architect and Resident Engineer:

QTY	BOTANICAL NAME	COMMON NAME	SIZE	NOTES
170	Carya illinoensis	Pecan	3 gallon container	Planted approximately 25 feet on center
170	Carya laciniosa	Shellbark Hickory	3 gallon container	Planted approximately 25 feet on center
170	Quercus shumardii	Shumard Oak	3 gallon container	Planted approximately 25 feet on center
170	Quercus bicolor	Swamp White Oak	3 gallon container	Planted approximately 25 feet on center
170	Quercus palustris	Pin Oak	3 gallon container	Planted approximately 25 feet on center

Trees

All trees must be a minimum of 4' tall and furnished in 3 gallon containers. The trees must have a well developed root ball which holds the soil together when pulled from the container in which it is grown. Trees with root balls that do not hold together at the time of inspection will be rejected. Trees must be propagated in a manner which will prune the roots by being exposed to the air. The following nurseries are examples of those which use this method of growing trees.

Forrest Keeling Nursery  
 Elsberry, MO  
 (800) 356-2401

Woody Warehouse  
 Lizton, IN  
 (866) 766-8367

Mulch Cover

Delete Article 253.11 Mulch Cover and replace it with the following:

A mulch cover of 4 inches deep by 48 inches in diameter of hardwood shredded bark shall be provided for all trees.

Basis of Payment.

This work shall be paid for at the contract unit price each for the various species and sizes of trees.

Revised 01/03/2007

## **WORK AT CASEY'S GENERAL STORE (PARCEL 146)**

The contractor cannot begin any work at this location until after April 1, 2007

The underground storage tanks on this parcel will be removed by others. The dewatering and backfilling of the void with porous granular backfill will be the contractor's responsibility. The porous granular backfill will be placed to the requirements of Section 209 of the Standard Specifications, except for the following:

Revise Article 209.03 to read: The porous granular material shall be placed for the full area to a depth one foot below the bottom of the pavement. Natural material suitable for lime stabilization shall be used to fill the remainder of the void.

Delete Article 209.04

Revise Article 209.05 to read: BASIS OF PAYMENT. This work, including the dewatering, will be paid for in accordance with article 109.04.

## **BITUMINOUS MATERIALS COST ADJUSTMENTS (BDE) (RETURN FORM WITH BID)**

Effective: November 2, 2006

Revised: January 2, 2007

Description. For projects with at least 1200 tons (1100 metric tons) of work involving applicable bituminous materials, cost adjustments will be made to provide additional compensation to the Contractor, or credit to the Department, for fluctuations in the cost of bituminous materials when optioned by the Contractor. The adjustments shall apply to permanent and temporary hot-mix asphalt (HMA) mixtures, bituminous surface treatments (cover and seal coats), and pavement preservation type surface treatments. The adjustments shall not apply to bituminous prime coats, tack coats, crack filling/sealing, or joint filling/sealing.

The bidder shall indicate on the attached form whether or not this special provision will be part of the contract and submit the completed form with his/her bid. Failure to submit the form, or failure to fill out the form completely, shall make this contract exempt of bituminous materials cost adjustments.

Method of Adjustment. Bituminous materials cost adjustments will be computed as follows.

$$CA = (BPI_P - BPI_L) \times (\%AC_V / 100) \times Q$$

Where: CA = Cost Adjustment, \$.

BPI<sub>P</sub> = Bituminous Price Index, as published by the Department for the month the work is performed, \$/ton (\$/metric ton).

BPI<sub>L</sub> = Bituminous Price Index, as published by the Department for the month prior to the letting, \$/ton (\$/metric ton).

%AC<sub>V</sub> = Percent of virgin Asphalt Cement in the Quantity being adjusted. For HMA mixtures, the % AC<sub>V</sub> will be determined from the adjusted job mix formula. For bituminous materials applied, a performance graded or cutback asphalt will be considered to be 100% AC<sub>V</sub> and undiluted emulsified asphalt will be considered to be 65% AC<sub>V</sub>.

Revised 01/03/2007

## **COMBINATION CONCRETE CURB AND GUTTER**

The Combination Concrete Curb and Gutter, Type B-6.24, Combination Concrete Curb and Gutter, Type M-6.06, and Combination Concrete Curb and Gutter, Type M-6.24 shall be constructed in accordance with standard 606001. The Contractor shall use the "On Disturbed Subgrade" detail under the "Adjacent to Flexible Pavement" heading next to any flexible pavement.

The hot mix asphalt required under the Combination Concrete Curb and Gutter shown on the "On Disturbed Subgrade" detail on standard 606001 shall be included in the cost of the various Hot Mix Asphalt pay items.

Added 01/03/2007
