

IDOT PROJECT LABOR AGREEMENT DETERMINATION

To: Ann L. Schneider, Secretary
From: Omer Osman, Director
Date: December 31, 2012
Re: FAP 330 (US 45), Contract Number 60W09, Cook County
{March 8, 2013 letting /Completion date July 26, 2013}

In accordance with the Project Labor Agreement Act (30 ILCS 571), it is recommended that a project labor agreement (PLA) be utilized for the above-captioned Project. This recommendation is based on the considerations indicated below.

- 1) The Project is being awarded and administered by IDOT (i.e., not by another governmental agency). **Attachment A**
- 2) The Project is being constructed using state or local funds only (i.e., no federal funds).
- 3) The overall size, scope, sequencing, logistics or other aspects of the Project make it particularly challenging to manage, and use of a PLA is expected to help assure that the construction work is performed properly and efficiently under the circumstances.). **Attachment A**
- 4) The duration of construction activity on the Project is expected to exceed one construction season (i.e., 110 or more working days), or the nature of the Project results in a heightened need for labor force continuity and stability over a substantial period of time.). **Attachment A**
- 5) There is a firm construction completion date established for the Project thereby increasing the adverse consequences of any work stoppage or other labor disruption.). **Attachment A**
- 6) The time required to complete the Project is expected to extend beyond the expiration date of one or more existing collective bargaining agreements covering trades likely to be involved in the Project, thereby increasing the likelihood of work stoppage(s) or other labor disruption(s) during construction of the Project.). **Attachment A**
- 7) In the absence of a PLA, there is an increased likelihood of jurisdictional disputes among unions or of conflict between unionized and non-unionized workers on the Project that could have a potentially material adverse effect on the time, cost, or quality of work performed on the Project.

8) This project presents specific safety concerns to the traveling public and a PLA, will ensure labor force continuity and stability, decreasing the length of the safety concern.) Attachment A

9) Use of a PLA is expected to result in improved access to skilled labor, improved efficiency, or improved safety performance on the Project.

10) Use of a PLA on the Project is not expected to have a material adverse effect on the competitive bidding process.

11) Use of a PLA on the Project is not expected to have a material adverse effect on the ability of the Department to achieve other Departmental goals (e.g., utilization of disadvantaged businesses, utilization of Illinois domiciled businesses, development of competitive vendor alternatives over time, etc.)

12) There are other material considerations favoring or disfavoring use of a PLA on this Project as follows:).
Attachment A

Based upon the identified considerations, we recommend that you approve use of a PLA on this Project. Upon your approval, the Department shall undertake to negotiate in good faith a PLA with the relevant labor organization(s), and shall include in all necessary bid specifications and other documents information regarding the actual or form of PLA that is to binding upon all contractors and their employees.

Ann L. Schneider, Secretary (Date)

FHWA concurrence in the PLA for the above mentioned contract

Gregory G. Nadeau	1/31/2013
FHWA Deputy Administrator	(see attached approval page)

Attachment A:

Justification for use of a Project Labor Agreement for Contract No. 60W09 in Cook County.

The use of a Project Labor Agreement on this project is consistent with all State and Local statutory and regulatory requirements.

Item 3: The estimated construction cost is \$2,000,000.

This is advance contract and is part of \$95,000,000 US 45 131st Street to 179th Street reconstruction. Any disruption in the continuity of this project due to labor issues would result in delayed deadlines that would delay completion of other three main line reconstruction contracts scheduled for this fiscal year and cause safety concerns for the traveling public. Lapsing trade contracts that would occur during the project would be addressed through the use of a Project Labor Agreement. It is the Illinois Department of Transportation's finding that the large skilled workforce needed for this project can be provided by the union trades involved and is necessary requirement for a Project Labor Agreement.

Item 4: This contract is an advance contract being let in order to help maintain the schedule for subsequent contracts. The Department is striving to be completed with all the work for the US 45 project in two (2) construction seasons under multiple stages and multiple contracts. The nature of the work involves tree removal; median removal; box culvert construction and temporary pavement construction along US 45, a local SRA in the Village of Palos Hill and Orland Park.

Item 5: This contract is scheduled to be constructed by using non rush hours lane closure to reduce impact on businesses and traffic delay.

Item 6: The targeted completion date of this contract is July 26, 2013 and this date falls beyond the union contract expiration date as shown below:

Collective Bargaining Agreements

1. Chicago Regional Council of Carpenters
 - Local 54 Cook, Lake & DuPage Counties 6-1-10 to 5-31-14

2. Construction and General Laborers' District Council of Chicago & Vicinity
 - Road Building Various Local Unions 6-1-10 to 5-31-13

3. Operating Engineers, Local 150
 - Heavy, Highway & Underground 6-1-10 to 5-31-13

4. Teamsters Joint Council No. 25

- Teamsters Local 179 still being negotiated

5. Technical Engineers, Local 130 6-1-10 to 5-31-13

6. Electricians,

- McHenry, Lake, Kane, DuPage.
Local 117

- Inside Agreement 6-4-2012 to 5-31-2013
- Residential Agreement 10-31-2011 to 9-2-2012
- Telecommunication Agreement 6-4-2012 to 8-31-2014

Local 150

- Inside Agreement 6-4-2012 to 6-2-2013
- Residential Agreement 10-31-2011 to 9-2-2012
- Telecommunication Agreement 6-4-2012 to 6-2-2013

Local 461

- Inside Agreement 6-4-2012 to 6-2-2013
- Residential Agreement 10-31-2011 to 9-2-2012
- Telecommunication Agreement 6-4-2012 to 6-2-2013

Local 701

- Inside Agreement 6-4-2012 to 6-3-2013
- Residential Agreement still being negotiated
- Telecommunication Agreement 6-4-2012 to 6-3-2013

7. Ironworkers Local 1

- Structural still being negotiated
Extension on agreements

Item 8: US Route 45 has an ADT of 42,300 vehicles. There are no good alternate routes under the department's jurisdiction therefore traffic is likely to continue to use US Rte. 45 even when there are delays due to reduced lanes during construction. Any disruption to the contractor's schedule due to labor issues may result in additional hardship on the travelling public if the amount of time they have to deal with lane reductions is increased.

Item 12: - The Contract is planned to be completed in this construction season which does not allow for any delays by the work force involved in the contract and will cause delay to start three main contracts and delay completion of main contracts. The trades expected to be used on this project include but are not limited to laborers, carpenters, masons, operators and ironworkers. Any work stoppage due to expiration of contracts or strikes will jeopardize the construction resulting in inconvenience to the motoring public, safety concerns and increased delays
