401 Main Street / Peoria, Illinois / 61602-1111  
Telephone 309/671-3333

IDNR/OWR STATEWIDE PERMIT 12

PERMIT NO.: D4S12-01-2018

DATE: January 18, 2018

Route: FAP 22 (IL 78)                      Job No. P-94-004-01  
Section: (14BR-1)BR                      Exist. S.N. 037-0072  
County: Henry                                Prop. S.N. 037-0177  
Stream: Indian Creek  
Structure Type: 3 Span, Open Abutments  
Bridge Length: 140' Bk. To Bk. Abutments

District 4 has no objection to the proposed construction designated above, provided the proposed structure is based on the TSL approved by the Bureau of Bridges and Structures on January 11, 2011. The following checklist must apply:

- The stream crossing is located in a rural area draining more than ten square miles or an urban area draining more than one square mile.
  - Replacement structure is proposed that provides the same amount of effective waterway opening as the existing or greater.
  - The waterway opening of the existing and replacement structure has been determined by or under the supervision of a Professional Engineer.
- Existing road grade is:
- lower than the 100-year frequency headwater elevation with no appreciable reduction in over the road flow area, or
  - above the 100-year frequency headwater elevation
- There will be no straightening, enlargement or relocation of the channel in the vicinity of the replacement structure.
  - Certification statement by a Professional Engineer meets the following criteria:
    - the existing structure has not been the cause of demonstrable flood damages,
    - no buildings or structures are impacted by the backwater induced by the existing structure,
    - and there is no record of complaints of flood damages associated with the existing structure.
