2300 South Dirksen Parkway / Springfield, Illinois / 62764

June 3, 2009

SUBJECT: FAP Route 412 (IL 17)
Project IM-039-1 (027) 035
Section (62-2HB-2)I
Marshall County
Contract No. 68729
Item No. 19, June 12, 2009 Letting
Addendum A

NOTICE TO PROSPECTIVE BIDDERS:

Attached is an addendum to the plans or proposal. This addendum involves revised and/or added material.

1. Replaced the Schedule of Prices.
2. Revised sheets 1 and 3 of the Plans.
3. Added sheets 7a and 7b to the Plans.
4. Revised page 3 of the Special Provisions.

Prime contractors must utilize the enclosed material when preparing their bid and must include any Schedule of Prices changes in their bidding proposal.

Bidders using computer-generated bids are cautioned to reflect any and all Schedule of Prices changes, if involved, into their computer programs.

Very truly yours,

Charles Ingersoll, Chief
Bureau of Design and Environment

TRAFFIC CONTROL AND PROTECTION (SPECIAL)

Description. This work shall consist of the furnishing, installation, maintenance, and removal of all traffic control devices as specified on the plan sheets for Traffic Control and Protection, (Special). All work shall be in accordance with Section 700 of the "Standard Specifications for Road and Bridge Construction.

Materials. All traffic control materials and devices shall meet the requirements of Article 701.02 of the Standard Specifications. An estimated 2,000' of Type III, 4" Pavement Marking Tape shall be included for traffic lane shifts. The installation of these materials and devices shall meet the approval of the Engineer before and during the project work.

Equipment. Equipment and device requirements in addition to this Traffic Control Special shall be noted on the plan sheets and/or clarified at the job location.

Construction Requirements. Traffic Control shall be as shown on the staging plans. Staging sequence for the work performed shall be determined by the Contractor and the Engineer who shall meet to review and clarify traffic device amounts and installation locations at least three weeks prior to starting the work. The Contractor shall not simultaneously work on shoulder removal and median removal as directed in Article 701.08 of the Standard Specifications. The Traffic Control Supervisor, Bureau of Operations, shall be notified at least two weeks prior to the commencement of lane reductions.

The traffic control signage for the project shall consist of the following in each travelled direction:

- Road Construction Ahead - 2000' in advance of work.
- Workers - 1500' in advance of work area (only displayed when working).
- Work Zone 45 assembly - 1000' in advance of work area (only displayed when working).
- End Work Zone Speed Limit – after work area (only displayed when working).
- Cones to delineate a mild shift to allow work room at 50' spacing.
- Barrels with Type B flashing lights to protect patches and median area.
- Road Construction Ahead on ramps.

Basis of Payment. This work will be paid at the contract unit price per lump sum for TRAFFIC CONTROL AND PROTECTION (SPECIAL).

TEMPERATURE CONTROL FOR CONCRETE PLACEMENT

Effective: August 3, 2007

Delete the second and third sentences of the second paragraph of Article 1020.14(a) of the Standard Specifications.

BRIDGE APPROACH SHOULDER REMOVAL AND REPLACEMENT

This item shall include all materials, labor, and equipment necessary to remove and construct replacement bridge approach shoulder in accordance with applicable sections of the Standard Specifications except as herein specified.

Revised 06/03/2009
