FAS 1279 (IL 178)
Section (1)BR&I
LaSalle County
050-0088 (exist), -0256(prop)
IL 178 Over Illinois River, South of Utica
P-93-035-01
Contract #66992

Today at 3:45pm I spoke with Mike Diedrichsen Acting Manager, Downstate Regulatory Programs at IDNR and discussed the status of the temporary causeway permit application. I told him we were no longer going to consider a temporary causeway since we were having difficulties meeting the 0.00' created head criteria.

I also asked him about created head considerations of moored barges in the river that a contractor may use to construct the pier foundations, and he stated that they do not consider any created head effects of a barge. He also stated that the barges are regulated by the Coast Guard.
