

Designer Note: To be used on those contracts with tree removal as a pay item. Discuss the use of this note on each project with Project Support and Construction before including. It is important to understand that the contractor cannot be required to remove trees until such time as the contract is awarded, executed, and the contractor is able to start work.

### **TREE REMOVAL - UTILITY RELOCATION**

Tree removal may be necessary prior to utility companies being able to relocate their facilities outside the construction limits. The Contractor should coordinate any contract tree removal activities with the utility companies to eliminate conflicts and potential delays caused by utility tree removal activities or incomplete utility relocations.
