

GN:201.01

Revised 10-15-01

Designer Note: If clearing is at isolated areas and outside of proposed excavation and/or embankment, this General Note requires the Contractor to restore the disturbed area to blend with the adjacent ground. Show/denote areas on plans to be cleared.

The Designer needs to provide reseeding or resodding elsewhere in the plans.

CLEARING

At locations where clearing is indicated on the plans beyond the limits of the proposed excavation or embankment, the Contractor shall restore the disturbed earth by blading and shaping to blend with the adjacent ground. The clearing will not be paid for separately but shall be included in the cost of the excavation pay items in the plans. Payment for reseeding or resodding will be as provided in the plans.
