ILLINOIS ENVIRONMENTAL PROTECTION AGENCY
WATER POLLUTION CONTROL PERMIT

LOG NUMBERS: 2022-67666

PERMIT NO.: 2022-HB-67666

BUREAU ID: W0970500059

FINAL PLANS, SPECIFICATIONS, APPLICATION
AND SUPPORTING DOCUMENTS

DATE ISSUED: October 7, 2022

PREPARED BY: Horner & Shifrin, Inc.

SUBJECT: HIGHLAND PARK – FAU Route 1255-Skokie River Bridge
(North Shore Water Reclamation District – Clavey Road Sewage Treatment Plant) - Sanitary Sewer Permit

PERMITTEE TO CONSTRUCT, OWN AND OPERATE

City of Highland Park
1150 Half Day Road
Highland Park, Illinois 60035

Permit is hereby granted to the above designated permittee(s) to construct and/or operate water pollution control facilities described as follows (quantities are approximate):

138 feet of 24 inch sanitary sewer and 3 manholes to serve as a relocation with no additional flows (0P.E., 0 GPD, DAF) located on Park Ave. West at Skokie River Bridge with discharge to an existing 54 inch sanitary sewer tributary to the above indicated sewage treatment plant.

This Permit is issued subject to the following Special Condition(s). If such Special Condition(s) require(s) additional or revised facilities, satisfactory engineering plan documents must be submitted to this Agency for review and approval for issuance of a Supplemental Permit.

SPECIAL CONDITION 1: Please contact the Illinois Department of Natural Resources (IDNR), Office of Water Resources. IDNR may require a permit pursuant to the Rivers, Lakes, and Streams Act for construction of that portion of the project located in the floodplain. The U.S. Army Corps of Engineers may also require a permit pursuant to Section 404 of the Clean Water Act. Application forms received from IDNR will specify which Corps District you should contact.

SPECIAL CONDITION 2: The Permittee to Construct shall be responsible for obtaining an NPDES Storm Water Permit prior to initiating construction if the construction activities associated with this project will result in the disturbance of one (1) or more acres total land area. Additional information is provided on the following webpage: <https://www2.illinois.gov/epa/topics/forms/water-permits/storm-water/Pages/construction.aspx>.

An NPDES Storm Water Permit may be obtained by submitting a properly completed Notice of Intent (NOI) form by certified mail to the Agency's Division of Water Pollution Control - Permit Section.

SPECIAL CONDITION 3: Any connections to this sanitary sewer extension must be in accordance with the latest Revisions of Title 35, Subtitle C, Chapter 1. Permits must be obtained if required by said regulations.

SPECIAL CONDITION 4: Horizontal and/or vertical separation between any sanitary sewers and water mains must be in conformance with Section 370.350 of the Illinois Recommended Standards for Sewage Works.

Page 1 of 2

THE STANDARD CONDITIONS OF ISSUANCE INDICATED ON THE REVERSE SIDE MUST BE COMPLIED WITH IN FULL. READ ALL CONDITIONS CAREFULLY.

SUBJECT: HIGHLAND PARK – FAU Route 1255-Skokie River Bridge
(North Shore Water Reclamation District – Clavey Road Sewage Treatment Plant) - Sanitary Sewer Permit

SPECIAL CONDITION 5: The issuance of this permit does not release the permittee to construct from any obligation to comply with the requirements of the Illinois State Agency Historic Resources Preservation Act or the Illinois Historic Preservation Office.

READ ALL CONDITIONS CAREFULLY:
STANDARD CONDITIONS

The Illinois Environmental Protection Act (Illinois Revised statutes Chapter 111-12. Section 1039) grants the Environmental Protection Agency authority to impose conditions on permits which it issues.

1. Unless the construction for which this permit is issued has been completed, this permit will expire (1) two years after the date of issuance for permits to construct sewers or wastewater sources or (2) three years after the date of issuance for permits to construct treatment works or pretreatment works.
2. The construction or development of facilities covered by this permit shall be done in compliance with applicable provisions of Federal laws and regulations, the Illinois Environmental Protection Act, and Rules and Regulations adopted by the Illinois Pollution Control Board.
3. There shall be no deviations from the approved plans and specifications unless a written request for modification of the project, along with plans and specifications to the Agency and a supplemental written permit issued.
4. The permittee shall allow any agent duly authorized by the Agency upon the presentations of credentials.
 - a. To enter at reasonable times, the permittee's premises where actual or potential effluent, emission or noise sources are located or where any activity is to be conducted pursuant to this permit;
 - b. To have access to and copy at reasonable times any records required to be kept under the terms and conditions of this permit;
 - c. To inspect at reasonable times, including during any hours of operation of equipment constructed or operated under this permit, such equipment or monitoring methodology or equipment required to be kept, used, operated, calibrated, and maintained under this permit;
 - d. To obtain and remove at reasonable times samples of any discharge or emission of pollutants;
 - e. To enter at reasonable times and utilize any photographic, recording, testing, monitoring, or other equipment for the purpose of preserving, testing, monitoring, or recording any activity, discharge, or emission authorized by this permit;
5. The assurance of this permit:
 - a. Shall not be considered as in any manner affecting the title of the premises upon which the permitted facilities are to be located;
 - b. Does not release the permittee from any liability for damage to person or property caused by or resulting from the construction, maintenance, or operation of the proposed facilities;
 - c. Does not release the permittee from compliance with other applicable statutes and regulations of the United States, of the State of Illinois, or with applicable local laws, ordinances, and regulations;
 - d. Does not take into consideration or attest to the structural stability of any units or parts of the project;
 - e. In no manner implies or suggests that the Agency (or its offices, agents, or employees) assumes any liability, directly or indirectly, for any loss due to damage, installation, maintenance, or operation of the proposed equipment or facility;
6. Unless a joint construction/operation permit has been issued, a permit for operating shall be obtained from the Agency before the facility or equipment covered by this permit is placed into operation.
7. These standard conditions shall prevail unless modified by special conditions.
8. The Agency may file a complaint with the Board for suspension or revocation of a permit;
 - a. Upon discovery that the permit application contained misrepresentations, misinformation, or false statement or that all relevant facts were not disclosed; or
 - b. Upon finding that any standard or special conditions have been violated; or
 - c. Upon any violation of the Environmental Protection Act or any Rules or Regulation effective thereunder as a result of the construction or development authorized by this permit.

 NAME OF SIGNER (PLEASE PRINT)

APPLICANT OR AUTHORIZED AGENT PERSONALLY REPRESENTS AND WARRANTS THAT THEY HAVE THE FULL RIGHT, POWER AND AUTHORITY TO EXECUTE THIS PERMIT APPLICATION ON BEHALF OF OWNER.

SANITARY SEWER EXTENSION

For the purpose of procuring a permit from the North Shore Water Reclamation District (District or NSWRD) for the construction of a sanitary sewer extension the Applicant (Owner) does hereby represent, covenant and agree to and with the said District as stated below:

- A. In accordance with Section 3.02 a) of the District's Ordinance Relating to Sewers and Sewer Systems, this permit shall expire on the expiration date of the Illinois Environmental Protection Agency permit which has been issued in conjunction with this permit.**
- B. That all work done pursuant to the permit herein applied for shall be strictly in conformity with, "An Ordinance Relating to Sewers and Sewer Systems" (a copy of which is available upon request, or may be downloaded at www.northshorewrd.org) regulating the design, construction, operation, maintenance and use of the proposed or existing sewer or sewer system, and with the description of the work herein contained, and with the plans and specifications for said work hereunto attached.
- C. That Applicant shall restore all sewers, appurtenances, pavement and/or other structures or surfaces disturbed by the work of making connection to the sewerage work of the District, to as good condition as the same existed at the time of commencement of said work and in accordance with the regulations and easements of the District.
- D. That Applicant shall indemnify and save harmless the District from any and all loss, cost, damage and expense which may come to the District by reason of or in any manner growing out of or connected with said work, or the resulting connection to and subsequent use of any facilities, provided, however, that the liability, if any, of the applicant to the District shall not be limited to the specific liabilities mentioned, but the Applicant shall in any event be liable to the District for any and all loss, cost, damage and/or expense of every kind and character arising from, growing out of and/or connected with such work or the resulting connections to and subsequent use of any facilities.
- E. That in case of any suit, action or proceeding against the District for damages or on account of any liability or claim arising from, growing out of or in any way connected with said work, Applicant shall, on demand of the District, enter his or its appearance therein, defend the same and pay all the costs, attorneys' fees, solicitors' fees and expense thereof and the amount of any and all final judgments, decrees and/or awards against the District entered or made therein.
- F. The Applicant or Applicant's sewer contractor agrees to notify the District and the municipality or public entity within whose jurisdiction the work will be performed at least forty-eight (48) hours prior to the commencement of the work to be done. Failure to do so will result in the assessment of the No Notification Fee, and could result in additional penalties, fines, and enforcement action up to and including termination of service.
- G. The Applicant shall provide a water-tight plug at the point of connection of the sanitary sewer extension, for which this application is made, to the existing sewer or appurtenance. The purpose of the plug is to prevent any water or debris from the new construction from entering the existing system. The plug shall be maintained until the sanitary sewer extension has been inspected and approved.
- H. Upon completion of the work, the Applicant shall obtain final approval from the municipality or public entity within whose jurisdiction the work is being performed and/or to whose sewer the sewer extension is connecting to. Any sewer extension not falling within the jurisdiction of any municipality or public entity or which connects directly to the facilities owned and operated by the District shall be approved by the District.
- I. No connections shall be made to sanitary sewer until such time that final approval of the sanitary sewer extension is obtained and connection permits are issued by the District.
- J. The Applicant hereby releases the District from any and all claims, causes of action and the like which might or may arise by virtue of this Application, any permit connection hereunder, any connection made as a result of said permit and any use of any facility or equipment of the District as a result of the foregoing, including but not limited to any act of the District or any failure of the District to act.
