

Designer Note: Use on resurfacing contracts where a minimum vertical clearance must be maintained. The Designer should check with the Bureau of Operations (Traffic) and then, if necessary specify the minimum vertical clearance required in accordance with the applicable policy. The designated height is to be inserted (\*).

### **MINIMUM VERTICAL CLEARANCE**

The Contractor shall verify the existing structure vertical clearance prior to placing bituminous overlay under any structure. A minimum (\*) vertical clearance shall be maintained under all structures.
