

70101

701.01

Designer Note: Use on projects where there is the potential for large gaps between operations such as patching utilizing Highway Standard 701401. Consult with Don Hoffman to confirm use of this District Special Provision. if a different Highway Standard is needed, revise the special and remove the "Effective" date.

## **FLAGGERS**

Effective: August 1, 2018

For operations when workers are on the pavement, one flagger shall be present for each separate operation that is greater than 500' from the initial flagger. The intent is a flagger is never more than 500' from a work activity with workers on the pavement regardless if there is encroachment of the work activity to the open lane. No additional compensation shall be allowed for flaggers and shall be included in the cost of Highway Standard 701401.
