CONTRACT NO. 62114 INDOT DES. NO. 0100987

**COFFERDAM ELEVATION**  
(Looking East)

\* A portion of the cofferdam installed in Phase 2 will be left in place. It shall be the contractor's responsibility to connect to the existing sheeting and provide closure to Piers 1 and 2 constructed in Phase 2. Cost included with "Excavation, Wet (Indiana)".

The contractor shall verify the sheeting type and size, quantity and location of the existing cofferdam remaining from Phase 2.

The complete removal of all the existing cofferdam remaining from Phase 2 is the responsibility of the contractor and shall be included in the cost of "Excavation, Wet (Indiana)".

**NOTES:**  
The information shown for the Cofferdams is estimated. It is the Contractor's responsibility to provide a design and computations of the Cofferdams, Cofferdam bracing, and all associated members, if required, subject to the approval of the Engineer.  
Cofferdam sheeting, walers, bracing, struts, and seal coat concrete, as required by the contractor's design, shall be included in the cost of "Excavation, Wet (Indiana)".  
All dimensions are in millimeters (mm) except as noted.
