

TRANSPORTATION BULLETIN

Illinois Department of Transportation

ADDENDUM NO. 1

Dated: January 9, 2012

For: Transportation Bulletin

Letting Date: January 20, 2012

Volume 14, No. 49 Dated: December 9, 2011

Item No. 1A – Grading and Drainage for 800 Ft. Extension to Runway End 31
Marshall County Airport (C75)
Lacon, Illinois
Marshall County
IL Project No. C75-3989
AIP Project No. 3-17-0059-B12

REASON FOR ADDENDUM: Plan Clarification & Typo Correction

The reason for this addendum is to clarify the unclassified excavation undercutting in excavated areas and to correct a typographical omission in the seeding formula.

TO ALL PLAN HOLDERS:

Section III - Special Provisions,

Please make the following changes to this document:

On Page 8, under Item AR152410 Unclassified Excavation

CONSTRUCTION METHODS

152-2.2 Excavation.

Add the following to this section:

“All excavated areas outside of the proposed pavement area will be undercut 4” below the proposed finished grade to provide 4” of topsoil. The additional 4” of material will be used in the proposed fill area in place of the topsoil material that will be stockpiled until it can be placed in the excavated areas. The undercutting of all excavated areas, stockpiling of topsoil and placement of the topsoil in the excavated areas will be considered as incidental to the unclassified excavation item of work and no additional compensation will be allowed.”

Add the following to this specification:

“152-2.6 Formation of Embankments.

Add the following to this section:

In the construction of embankments that are outside of the proposed pavement area, the final 4” of embankment will be constructed with topsoil material. The Contractor will stockpile the topsoil material until it is needed to construct the final 4” of the proposed embankments. The stockpiling of the topsoil will be considered as incidental to the unclassified excavation item of work and no additional compensation will be allowed.”

On Page 30, under Item AR901510 Seeding

901-2.1 Seed.

In order to agree with the proposed seed mixture of an Illinois Department of Transportation Northern Illinois Slope Mixture revise the following rate:

Replace

Andropogon Scoparius
(Little Bluestem) 5/ 2 lbs/acre

With

Andropogon Scoparius
(Little Bluestem) 5/ **12 lbs/acre**
