STATUS OF UTILITIES TO BE ADJUSTED..... 119
SIDEWALK REMOVAL AND REPLACEMENT 120

STATUS OF UTILITIES TO BE ADJUSTED

Effective: January 30, 1987

Revised: January 24, 2013

Utilities companies involved in this project have provided the following estimated durations:

Name of Utility	Type	Location	Estimated Duration of Time for the Completion of Relocation or Adjustments
ComEd	Manhole to be adjusted	Intersection of Jefferson St. & Eastern Ave. (Approx. Sta 32+00)	Contact Joliet area Project Engineer Tom Mahar at (815)724-5010 to initiate the process

The above represents the best information available to the Department and is included for the convenience of the bidder. The applicable portions of Articles 105.07 and 107.31 of the Standard Specifications shall apply.

In accordance with 605 ILCS 5/9-113 of the Illinois Compiled Statutes, utility companies have 90 days to complete the relocation of their facilities after receipt of written notice from the Department. The 90-day written notice will be sent to the utility companies after the following occurs:

- 1) Proposed right of way is clear for contract award.
- 2) Final plans have been sent to and received by the utility company.
- 3) Utility permit is received by the Department and the Department is ready to issue said permit.
- 4) If a permit has not been submitted, a 15 day letter is sent to the utility company notifying them they have 15 days to provide their permit application. After allowing 15 days for submission of the permit the 90 day notice is sent to the utility company.
- 5) Any time within the 90 day relocation period the utility company may request a waiver for additional time to complete their relocation. The Department has 10 days to review and respond to a waiver request.

Added 4-15-13

SIDEWALK REMOVAL AND REPLACEMENT

The work shall consist of the removal of portions of existing Portland cement concrete sidewalk and brick accent strip disturbed at locations where the existing curb and gutter is called for replacement as directed by the Engineer and the corresponding replacement in kind.

Description Removal of the existing sidewalk shall be performed in accordance with the applicable portions of Section 440 of the Standard Specifications. The existing subgrade shall be rolled or tamped to the in-kind line and grade. If additional material is required to establish the in-kind grade, the material used shall meet the requirements for aggregate base course per Article 1004.04 of the Standard Specifications.

Removal of brick accent strips shall be done so existing bricks may be reused. Replacement of bricks shall be done to match existing pattern and style. The Contractor shall be responsible for any damage to the bricks during removal and shall replace them in the same size, color, and style.

The replacement of PCC sidewalk shall be performed in accordance with the applicable portions of Section 424 of the Standard Specifications; the thickness of each sidewalk shall match the existing thickness.

Basis of Payment This work shall be measured and paid for at the contract unit price per square foot for SIDEWALK REMOVAL (SPECIAL).
