

Illinois Department of Transportation

2300 South Dirksen Parkway / Springfield, Illinois / 62764

April 13, 2017

SUBJECT: FAP Route 853 (IL 37/IL 14)
Project NHPP-0853(012)
Section D9 Traffic Signal 2014-1
Franklin County
Contract No. 78367
Item No. 129, April 28, 2017 Letting
Addendum A

NOTICE TO PROSPECTIVE BIDDERS:

Attached is an addendum to the plans or proposal. This addendum involves revised and/or added material.

1. Replaced the Schedule of Prices
2. Revised pages i and ii of the Table of Contents to the Special Provisions
3. Revised page 13 of the Special Provisions
4. Revised sheets 3, 13, 15, 48, 49, 50, 70 and 71 of the Plans

Prime contractors must utilize the enclosed material when preparing their bid and must include any Schedule of Prices changes in their bidding proposal.

Bidders using computer-generated bids are cautioned to reflect any and all Schedule of Prices changes, if involved, into their computer programs.

Very truly yours,

Maureen M. Addis, P.E.
Engineer of Design and Environment

A handwritten signature in black ink, appearing to read 'Ted B. Walschleger' followed by a small 'P.E.' to the right.

By: Ted B. Walschleger, P. E.
Engineer of Project Management

FILLING EXISTING STORM SEWERS

This work shall consist of filling the existing storm sewer that runs along the IL 14 center line and other pipe to remain in place as shown in the plans with controlled low-strength material (CLSM) at locations shown in the plans. The material shall be in accordance with Section 1019 of the Standard Specifications.

Storm sewers to be filled shall be bulk headed at each end as well as at each location existing manholes are to be removed. The storm sewer shall be vented at the upper end. CLSM shall be pumped from the upper end so that filling begins at the lower end and commences until the entire length of the storm sewer is filled. The bulkheads shall be removed and the ends backfilled when the CLSM has cured to the satisfaction of the Engineer.

In the event that the pumping hose is not long enough to fill a certain run of existing pipe, holes shall be made in the top of the pipe to allow suitable filling as seen fit by the Engineer. All pavement removal, punching of said holes, proposed aggregate subbase, and proposed pcc base course 12 ½" required to bring pavement back to final grade shall be included in the cost of FILLING EXISTING STORM SEWERS.

This work shall be paid for at the contract unit price per Each for FILLING EXISTING STORM SEWERS, which price shall include all equipment, labor and materials necessary for bulk heading the existing storm sewers, constructing vents, placing the CLSM and backfilling.

BOLLARDS

Fixed bollards shall be placed in locations shown on the contract plans or as directed by the Engineer. The fixed bollards shall be (R8410-RA, Black) from Reliance Foundry or approved equal. The Contractor shall install the bollards in accordance with the manufacturer's recommendations. Prior to ordering the bollards the Contractor shall furnish the Engineer two copies of the manufacturer's drawings, specifications and installation instructions for final approval. The cost of comply with this Special Provision shall be included in the contract unit price per each of BOLLARDS and no additional compensation will be allowed the Contractor.

Revised 4-13-17
