

INDEX OF SHEETS

- 1 Title Sheet
- 2 Index of Sheets, General Notes and Highway Standards
- 3 Summary of Quantities
- 4-II Structure Plans S1-S8
- 12 Traffic Control and Protection for Side Roads, Intersections, and Driveways
- 13 Typical Applications Raised Reflective Pavement Marker (Snow-Plow Resistant)
- 14 District One Typical Pavement Markings
- 15 Arterial Road Information Sign
- 16 Driveway Entrance Signing

INDEX OF HIGHWAY STANDARDS

Standard No.	Description
515001-03	Name Plate for Bridge
701606-07	Urban Lane Closure, Multilane, 2W with Mountable Median
701801-04	Lane Closure, Multilane, 1W or 2W Crosswalk or Sidewalk Closure
701901-01	Traffic Control Devices
780001-02	Typical Pavement Markings

GENERAL NOTES

1. These plans have been prepared from notes received from IDOT Field Maintenance Engineers.
2. 10 ft (3 m) transitions shall be used to match proposed items of work to existing items in the field, unless otherwise shown. The transitions shall be paid for at the contract unit price for the proposed item of work specified.
3. The Resident Engineer must contact the Traffic Control Supervisor at (847)705-4470 at least 72 hours prior to installation of the temporary control devices.
4. The Contractor will not be allowed to set up a yard or field office on State property without written permission from the Department.
5. Do not scale these plans for construction purposes.
6. Plan dimensions and details relative to existing plans are subject to routine variations. The Contractor shall field verify existing dimensions and details affecting new construction and make necessary approved adjustments prior to construction or ordering of materials. Such variations shall not be cause for additional compensation for a change in scope of the work. However, the Contractor will be paid for the quantity actually furnished based upon the unit price bid for the work.
7. During construction operations, loose material deposits that obstruct the flow of water in draining the area shall be removed before the end of each work day. At the conclusion of construction operations, all drainage structures (new and existing) shall be free from all dirt and debris. This work will not be paid for separately but shall be considered incidental to the contract.
8. The Contractor shall protect existing utilities and shall brace and support the utilities properly in order to prevent settlement, displacement, or damage to the utilities. The protection of the utilities as specified herein will not be paid for separately, but shall be considered incidental to the contract.
9. Locations of existing utilities shown on the plans are from the available record information and must be verified by the Contractor.
10. Pollution control: The Contractor shall be required to comply with state regulations regarding air, water and noise.
11. The Contractor shall obtain all necessary permits, as required, prior to commencing with construction.
12. The Contractor shall obtain Coast Guard approval to occupy navigable waters for proposed work. A work plan shall be prepared by the Contractor, reviewed and approved by the Engineer and submitted by the Engineer to the Coast Guard for approval.
13. The Contractor shall take all necessary measures to assure that no debris falls in the Little Calumet River. The cost of this work shall be included as part of the applicable pay items.
14. The Contractor shall obtain a construction permit from the Illinois Department of Natural Resources (IDNR), Office of Water Resources for any temporary construction activity placed in the water except cofferdams. This shall include the placement of material for run-arounds, causeways, etc.
