D4 PARKING IMPROVEMENT 2018

D-94-009-18

PROJECT DESCRIPTION
THIS PROJECT IMPROVEMENT CONSISTS OF CONSTRUCTION OF AN HMA PARKING LOT WITH AN ENCLOSED FENCE AT AN EXISTING GRAVEL PARKING AREA, EAST OF DISTRICT 4 MATERIALS LAB.

STATE OF ILLINOIS
DEPARTMENT OF TRANSPORTATION

SUBMITTED May 17 2018

GENERAL NOTES

COMMITMENTS

Commitments are not to be altered without the written approval of all parties to which the commitment was made.
No commitments have been made on this project.

ENVIRONMENTAL REVIEWS

Prior to the use of any proposed borrow areas, use areas (temporary access roads, detours, run-arounds, etc.) and/or waste areas, the Contractor shall file the required environmental resource request surveys according to Section 107.22 of the Standard Specifications. These surveys are required in order for the Department to conduct cultural and biological resource surveys for the proposed site.

The required environmental resource documentation shall include the following:

- * BDE Form 2289 (Cultural and Natural Resources Review of Borrow Areas)
- * BDE Form 2290 (Waste/Use Area Review)
- * A location map showing the size limits and location of the use area
- * Color photographs depicting the use area
- * Borrow Area Entry Agreement form * D4 PI0101

Prior to any waste materials being removed from the construction site the required environmental resource surveys shall be obtained and filed by the Contractor. Excess waste products removed from the construction site shall be disposed of as required in Section 202.03 of the Standard Specifications.

Any protruding metal bars shall be removed prior to the disposal of broken concrete at approved disposal sites.

Please note that a minimum of four weeks shall be allowed for the District to obtain the required waste site environmental clearances and six weeks for the required borrow site environmental clearances.

AVAILABILITY OF ELECTRONIC FILES

Micro Station and GEOPAK files of this project will be made available to the Contractor after contract award. If there is a conflict between the electronic files and the printed contract plans and documents, the printed contract plans and documents shall take precedence over the electronic files. The Contractor shall accept all risk associated with using the electronic files and shall hold the Department harmless for any errors or omissions in the electronic files and the data contained therein. Errors or delays resulting from the use of the electronic files by the Contractor shall not result in an extension of time for any interim or final completion date or shall not be considered cause for additional compensation. The Contractor shall not use, share, or distribute these electronic files except for the purpose of constructing this contract. Any claims by third parties due to use or errors shall be the responsibility of the Contractor. The Contractor shall include this disclaimer with the transfer of these electronic files to any other parties and shall include appropriate language binding them to similar responsibilities.

PROJECT SPECIFIC NOTES

1. Aggregate Surface Course Type B shall be white rock.
2. Existing vegetation within the parking lot limits shall be removed to the satisfaction of the Engineer. This work shall not be paid for separately but shall be included in the cost of PREPARATION OF BASE (SPECIAL).

The IEPA generator number for IDOT right-of-way in Peoria County is 1438995017.

BITUMINOUS MATERIAL RATES

Surface Type	Residual Rate
Aggregate Base Course	0.25 lb /sq ft
Fog Coat (between lifts)	0.04 lb /sq ft

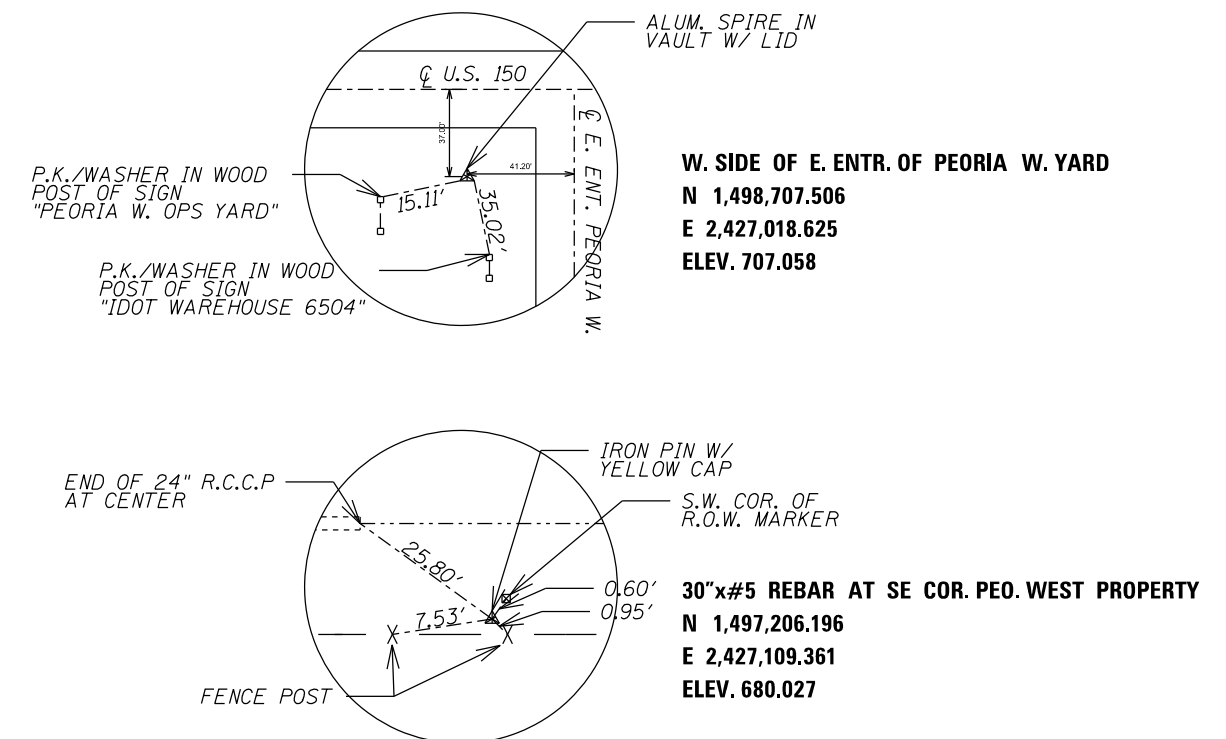

HOT-MIX ASPHALT MIXTURE REQUIREMENTS

Mixture Use(s):	Surface 3" (Two 1.5" lifts)
AC/PG:	PG 64-22
Design Air Voids:	4.0% @ N=50
Mixture Composition: (Mixture Gradation)	IL 9.5
Friction Aggregate:	Mix C
Quality Management Program:	QCQA

Notes:

1. Individual lift thickness of each mix type will be no less than three (3) times nominal maximum aggregate size and no more than 6 times nominal maximum aggregate size.
2. For design purposes, mixture weight for all mixes is determined to be 112.0 lb/s.y/in., unless otherwise noted.
3. Sublot sizes for PFP and QCP mixes will be 1000 tons, unless otherwise agreed to by the Engineer and the paving contractor.

Designer Note:

CA6 Cut - cut areas of existing gravel to be reincorporated into final base

CA6 Fill - areas to be filled as SUB-BASE GRANULAR MATERIAL, TYPE B or AGGREGATE SURFACE COURSE, TYPE B

These quantities are for informational purposes only and were used to determine design quantities for SUB-BASE GRANULAR MATERIAL, TYPE B and AGGREGATE SURFACE COURSE, TYPE B
