STATUS OF UTILITIES (D2).....	52

Revised September 5, 2025

STATUS OF UTILITIES (D2)

Utility companies and/or municipal owners located within the construction limits of this project have provided the following information regarding their facilities and the proposed improvements. The tables below contain a description of specific conflicts to be resolved and/or facilities which will require some action on the part of the Department's contractor to proceed with work. Each table entry includes an identification of the action necessary and, if applicable, the estimated duration required for the resolution.

This represents the best information available to the Department and is included for the convenience of the bidder. The days required for conflict resolution should be considered in the bid. The applicable portions of the Standard Specifications for Road and Bridge Construction shall apply.

Estimated duration of time provided for the first conflicts identified will begin on the date of the executed contract regardless of the status of the utility relocations. The responsible agencies will be working toward resolving subsequent conflicts in conjunction with contractor activities in the number of days noted.

A utility kickoff meeting may be scheduled between the Department, the Department's contractor and the utility companies when necessary. The Department's contractor is responsible for contacting J.U.L.I.E. prior to all excavation work.

UTILITIES TO BE ADJUSTED

The responsible agency must relocate or complete new installations as noted below for the Department's contractor to then work in the said location:

LOCATION	TYPE	DESCRIPTION	RESPONSIBLE AGENCY	DURATION OF TIME
Merchant St. intersection	Utility pole	In NW quad	Frontier	TBD

Added September 5, 2025

UTILITIES TO BE WATCHED AND PROTECTED

The areas of concern noted below have been identified, in addition to those noted on the plans, as utility facilities not being relocated for this contract. The information provided is not a comprehensive list of all remaining utilities, but those which during coordination were identified as ones which might require the Department's contractor to take into consideration when making the determination of the means and methods that would be required to construct the proposed improvement.

LOCATION	TYPE	DESCRIPTION	OWNER
Washington St. intersection	Handholes, marker	In SW quad near storm sewer inlet, telecom handholes & marker to remain in place	Various
Walnut St. intersection	Utility pole	In SW quad, utility pole to remain in place	ComEd
Merchant St. intersection	Utility pole	In SE quad, utility pole to remain in place	ComEd
