IDNR PERMIT

JB Pritzker, Governor • Jim Montgomery, Director
One Natural Resources Way • Springfield, Illinois 62702-1271
www.dnr.illinois.gov

October 21, 2026

SUBJECT: Permit No. DS2026109
Project: Matthiessen State Park – Roadway Improvements
Illinois and Vermillion Rivers
LaSalle County
41.31355 °N, -89.06789 °W

Attn: Michael C. Bauling
Illinois Department of Natural Resources
One Natural Resources Way
Springfield, IL 62702

To whom it may concern,

Enclosed is the Illinois Department of Natural Resources, Office of Water Resources Permit No. DS2026109, authorizing the subject project. This approval is based on the determination that the project complies with the rules for Construction in Floodways of Rivers, Lakes, and Streams (17 IAC Ch. I, Sec. 3700), Regulation of Public Waters (17 IAC Ch. I, Sec. 3704), and Floodplain Development Requirements for State Owned Properties (17 IAC Ch. I, Sec. 3710)].

This permit does not supersede any other federal, state, or local authorizations that may be required for the project. If any changes to the permitted work are found necessary, revised plans should be submitted promptly to this office for review and approval. Also, this permit expires on the date indicated in Condition (13). If unable to complete the work by that date, the permittee may make a written request for a time extension.

Upon receipt and review of this permit and all its conditions, please properly execute and return the attached acceptance blank within sixty (60) days from the date of the permit. Please feel free to contact Margo Rogers, of my staff at 217/785-3334 or margo.e.rogers@illinois.gov if you have any questions concerning this authorization.

Sincerely,

William B. Milner Jr, P.E., CFM
Section Chief, Downstate Regulatory Programs

Examined and Recommended:

William B. Milner Jr, Section Chief
Downstate Regulatory Programs

Approval Recommended:

Rick Pohlman, Acting Director
Office of Water Resources

Approved:

Jim Montgomery, Director
Department of Natural Resources

This PERMIT is subject to the terms and special conditions contained herein

Added October 28, 2026

PERMIT NO. S2026109

THIS PERMIT IS SUBJECT TO THE FOLLOWING CONDITIONS:

1) This permit is granted in accordance with the Rivers, Lakes, and Streams Act "615 ILCS 5."

2) This permit does not convey title to the permittee or recognize title of the permittee to any submerged or other lands, and furthermore, does not convey, lease or provide any right or rights of occupancy or use of the public or private property on which the activity or any part thereof will be located, or otherwise grant to the permittee any right or interest in or to the property, whether the property is owned or possessed by the State of Illinois or by any private or public party or parties.

3) This permit does not release the permittee from liability for damage to persons or property resulting from the work covered by this permit; and does not authorize any injury to private property or invasion of private rights.

4) This permit does not relieve the permittee of the responsibility to obtain other federal, state, or local authorizations required for the construction of the permitted activity; and if the permittee is required by law to obtain approvals from any federal or other state agency to do the work, this permit is not effective until the federal and state approvals are obtained. If construction does not begin within two years of the date of this permit, the permittee must submit the project to EcoCAT (http://dnr.illinois.gov/EcoPublic/) for an updated consultation under the Illinois Endangered Species Protection Act and the Illinois Natural Areas Preservation Act.

5) The permittee shall, at the permittee's own expense, remove all temporary piling, cofferdams, false work, and material incidental to the construction of the project. If the permittee fails to remove such structures or materials, the Department may have removal made at the expense of the permittee.

6) In public waters, if future need for public navigation or other public interest by the state or federal government necessitates changes in any part of the structure or structures, such changes shall be made by and at the expense of the permittee or the permittee's successors as required by the Department or other properly constituted agency, within sixty (60) days from receipt of written notice of the necessity from the Department or other agency, unless a longer period of time is specifically authorized.

7) The execution and details of the authorized work shall be subject to the review and approval of the Department. Department personnel shall have the right of access to accomplish this purpose.

8) Starting work on the activity authorized will be considered full acceptance by the permittee of the terms and conditions of the permit.

9) The Department in issuing this permit has relied upon the statements and representations made by the permittee; if any substantive statement or representation made by the permittee is found to be false, this permit will be revoked; and when revoked, all rights of the permittee under the permit are voided.

10) In public waters, the permittee and the permittee's successors shall make no claim whatsoever to any interest in any accretions caused by the activity.

11) In issuing this permit, the Department does not ensure the adequacy of the design or structural strength of the structure or improvement.

12) Noncompliance with the conditions of this permit will be considered grounds for revocation.

13) If the construction activity permitted is not completed on or before December 31, 2029, this permit shall cease and be null and void.
