PLAN PREPARATION MEMORANDUM 60-11

BACKGROUND & PROCEDURE

Manhole adjustments shall be considered on all urban inlay contracts. Studies and Plans Squad Members should also consider casting replacement when warranted due to unstable lids which are low and/or wobble within the casting.

If there is no opportunity to review the project in the field, use 30% of the manholes within the project limits to establish a quantity for manhole adjustments. This work should be included in Phase I Study estimates when applicable.
