

GENERAL NOTES

Signs shall be made of 3/4" plywood or oxford, or of metal (18 ga.). The Contractor shall furnish all material and labor for constructing and erecting the signs. The signs shall be placed prior to the starting of actual construction operations at each end of the construction section or as directed by the Engineer. Before any sign is erected, it shall be approved by the Engineer as to its appearance and quality of construction. The signs shall remain in place and shall be maintained in satisfactory condition until the project is accepted by the department. The Contractor shall then remove the signs and the material will become his property.

The letters on the sign shall be black mechanical style on a white background and appropriate border lines.

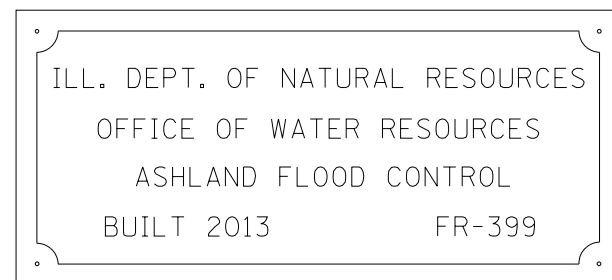

*Paid for as Wood Information Signs.*

*Bench Mark to be furnished by the Office of Water Resources.*

*See Design Plans for location.*

*Cost of placing shall be considered included with Concrete Box Culverts.*

LETTERING FOR NAME PLATE

*(See Standard 515001 and sheet 10 for name plate location)*
