

NOTES
 Refer to Highway Standards 701321/701201 in conjunction with this sheet for exact placement of traffic management devices and other clarifications as construction staging symbols and dimensioning were duplicated off of these standards.
 Traffic staging sequence shall be at the discretion of the Engineer for given field applications. 8:1 TCB taper required at abutment C in order to avoid traffic loading of aggregate shoulders leading onto bridge approaches. Exact TCB taper lengths and positioning to be determined in the field.

- SYMBOLS**
- Work Area
 - Barrier Wall Marker
 - Type III Barricade
 - Temp. Marking Tape
 - Temporary Concrete Barrier
 - Drum w/ steady burning light
 - Impact Attenuator
