

Illinois Department of Transportation

2300 South Dirksen Parkway / Springfield, Illinois / 62764

September 13, 2006

SUBJECT: Various Routes
Section 2005-0841
Various Counties
Contract No. 60A99
Item No. 57, September 22, 2006 Letting
Addendum B

NOTICE TO PROSPECTIVE BIDDERS:

Attached is an addendum to the plans or proposal. This addendum involves revised and/or added material.

1. Revised pages 1 and 216 of the Special Provisions.
2. Added Appendix pages A-3 through A-35 to the Special Provisions.

Prime contractors must utilize the enclosed material when preparing their bid and must include any Schedule of Prices changes in their bidding proposal.

Bidders using computer-generated bids are cautioned to reflect any and all Schedule of Prices changes, if involved, into their computer programs.

Very truly yours,

Michael L. Hine
Engineer of Design
and Environment

A handwritten signature in black ink, appearing to read 'Ted B. Walschleger' followed by 'P.E.'.

DEPARTMENT OF TRANSPORTATION
DISTRICT 1 ELECTRICAL MAINTENANCE CONTRACT

60A99

FOR YEARS 2007-2008

SECTION 1	CONTRACT REQUIREMENTS
ARTICLE 1.0	Instruction to Bidders and Pre-Qualification Submittals
ARTICLE 2.0	Definitions, Specifications & Standards
ARTICLE 3.0	Pre-Construction Submittals
ARTICLE 4.0	General Contract Requirements
ARTICLE 5.0	Routine Maintenance Work and Payment
ARTICLE 6.0	Non-Routine Maintenance Work and Payment
ARTICLE 7.0	Lighting, Navigation and Sign Illumination System
ARTICLE 8.0	Pump Station System
ARTICLE 9.0	Surveillance and Dynamic Message Sign Systems
ARTICLE 10.0	Traffic Signal System
ARTICLE 11.0	Extra Systems
APPENDIX	A-1 through A-35
SECTION 2	SPECIAL PROVISIONS
GENERAL SYSTEM	
LIGHTING, NAVIGATION AND SIGN ILLUMINATION SYSTEM	
PUMP STATION SYSTEM	
SURVEILLANCE AND DYNAMIC MESSAGE SIGN SYSTEM	
TRAFFIC SIGNAL SYSTEM	
EXTRA SYSTEMS	
SECTION 3	BDE SPECIAL PROVISIONS
SECTION 4	LIST OF LOCATIONS

The Contractor shall provide an updated form with a revised date for all locations being accepted for maintenance even if there is no change in inventory items on the form (the date shall reflect the acceptance of maintenance). The Bureau of Traffic reserves the right to make minor modifications to the form such as adding or deleting items or modifying the format, but without changing the overall scope of the form.

Refer to Article 5.0 for Formal Transfer of Maintenance responsibilities.

The Contractor shall also be responsible for updating and maintaining the Access data base of traffic signal equipment inventory. The inventory shall be compared to field locations and corrections noted and submitted to the Signal Engineer at least once each year.

10.18 PAINTING BY OTHERS ON STATE MAINTAINED FACILITIES

Other agencies will be permitted to paint traffic signal equipment, utilizing their own forces, as approved by the Engineer. The Contractor is required to inspect the location, before and after the location is painted, as part of routine maintenance. Maintenance will not be transferred. The Contractor will document dates of painting in the dispatch log. If any damages are observed to IDOT equipment as result of the painting, the Contractor will repair immediately, and recover the expenditures through 3rd party damages. (Refer to Article 5.0 for 3rd party documentation/repair requirements.)

10.19 TRAFFIC SIGNAL GROUNDING AND ELECTRICAL SERVICE UPGRADE

As part of routine maintenance of the Traffic Signal System, the Electrical Maintenance Contractor shall perform a grounding and electrical service upgrade to 200 traffic signal locations annually. The locations to be modified are intended to be determined by the Contractor and approved by the Engineer prior to March 1 of the contract year. It is intended that the Contractor complete the work within the calendar year. In addition to the 200 locations to be modified annually under Routine Maintenance, the Engineer may designate additional locations to be modified. Refer to Section 4 for a list of Traffic Signal Locations. Work at additional locations will be paid as Non-Routine Maintenance. The Contractor shall include a progress report in the monthly routine maintenance work documentation book. A list of traffic signal locations that have been upgraded through previous EMC contracts is provided in the Appendix.

The Contractor is responsible for scheduling the work and for coordinating with the Engineer whenever Engineer-witness functions are required. The Contractor shall also advise the Engineer when each location is complete and shall provide a written certification to that effect. The Engineer reserves the right to require a final inspection of the modification at any or all of the locations certified as complete. Should deficiencies be found upon inspection, a corrective work list will be prepared. If progress of the work is inadequate, or if errors in certified complete work are repeatedly found, the Engineer may initiate withholding of routine maintenance payment.

The traffic signal installations being modified shall be kept operational at all times except as expressly allowed herein or otherwise permitted by the Engineer. The Contractor shall be responsible for all traffic control and temporary provisions required for the work, all at no additional cost to the contract. All cable, conduit, fittings and accessories shall be new. All materials and work shall be in conformance with the requirements of applicable contract specifications and standard details, Special Provisions and Article 250 of the National Electrical Code.

The Contractor shall be responsible for coordination with the Electric Utility as necessary and shall be responsible for reporting any account modifications arising from the work to the Engineer in a timely manner. Although it is anticipated that all service agreements and accounts will remain as-is, if new agreements are required, the Contractor shall facilitate coordination between the Electric Utility and the Engineer, with the Department to sign any appropriate new

SURVEILLANCE SYSTEM YEARLY GROUNDING AND ELECTRIC SERVICE UPGRADE

Refer to Section 1, Article 9.15

The following locations are to be upgraded:

Edens:

1. Clavey S4265
2. Dempster S4105, S4100, S4115, S4110
3. Touhy S4065, S4070, S4075, S4080
4. Peterson S4035, S4040, S4050, S4045
5. Willow S4180, S4190, S4185, S4175

Eisenhower:

1. Sacramento S8100, S8105
2. Central S8190, S8195, S8180, S8175
3. Canal S8005

I-290:

4. North Ave. S9065, S9075, S9055, S9060, S9080, S9070

Kennedy:

5. Cumberland S3075, S3085, S3080, S3070

TRAFFIC SIGNAL SYSTEM YEARLY GROUNDING AND ELECTRIC SERVICE UPGRADE

Refer to Section 1, Article 10.16 for additional information.

The following pages list those traffic signal locations which have already been upgraded through prior Electrical Maintenance Contracts:
