

Following are list of Q&A that were received during the Webex "IDOT Strategic Program Management Office" on Friday, July 31, 2026 @ 11:00 AM.

Q: Can we get a list of participants on this call and firms that might be of the size and scale to qualify for these items?

A: Yes, the list of firms who participated in the call is posted.

Q: Will the PMO and GEC statements of interest be due at the same time as the rest of the PTB?

A: Yes, August 20th by noon.

Q: What is the page limit for the project understanding and approach? It's not shown in the "Submitting a statement of interest" section.

A: Project Approach is limited to 5 pages, per EPAS:

4. Unless additional information is required within the advertisement this field should be *blank*.

If the advertisement requests a Project Understanding and Approach to be provided, please attach/bundle here with any other extra requirements per the advertisement. The Project Understanding and Approach should not exceed 5 pages.

If your firm is entering into a Teaming, please attach the signed Teaming Agreement.

Q: Can you further clarify the conflict of interest statement. Will subs be precluded to pursue other design work?

A: Please refer to items 52, 53, and 55.

Q: Can you clarify how interviews for item 52 and 53 will be handled with the identical solicitations?

A: Submittals for items 52 and 53 are required to be identical. One interview will be granted to each shortlisted team. The Department will select one firm for each item from the group of short listed firms.

Q: Are there pre-existing conflicts based on projects that consultants are involved with currently or should teams structure around that?

A: Please refer to COI language in items 52, 53, and 55.

Q: In the Conflict of Interest section of Item 55 description, it references the GEC, not the PSS/Owners Rep Team. Is that GEC language just a typo?

A: Yes that is a typo.

Q: Who will be responsible for the determination if a request [conflict of interest] is made?

A: The Department will make the determination.

Q: If a firm submits on the GEC, will they be precluded from other items on the PSB?

A: No

Q: How much of the overall future IDOT projects are expected to be procured under a PMO vs. under future PTB items?

A: The Department will continue to procure services through its existing procedures.

Q: Any restriction to pursue both the PMO and GEC items as a prime?

A: No

Q: I'm wondering if remote work will be allowed on these contracts, when applicable

A: Yes.

Q: Is there any requirement for the GEC staff to work at a specific IDOT office or location or can the work be performed out of consultant offices?

A: It is expected that the team members participate in meetings/seminars at the IDOT locations needed. On-site daily co-located work is not expected as part of this contract.

Q: PTB does not specify a remote, hybrid, or in-office staffing requirement, can you please clarify

A: See answer above.

Q: To confirm the potential staff augmentation will need to report to the IDOT Chicago office?

A: See answer above.

Q: For Items 52 & 53, we are looking for clarification on the rating criteria, specifically the rating description of project specific criteria and what is meant by "presentation".

A: A revision to the bulletin will be issued.

Q: How will the short lists be generated with the interview 20% of the selection criteria

A: A revision to the bulletin will be issued.

Q: Would it be possible to add required licensing or certifications to the list of general staffing requirements on items 52-53? For example is the Lead Structural Engineer for Geotechnical analysis supposed to be an SE or a Geotech engineer?

A: Yes, we will allow an Illinois Licensed Geologist, Illinois Licensed Professional Engineer or an Illinois Licensed Structural Engineer.

Q: for Items 52& 53, do we only include resumes for the staff required in Exhibit A or are we to include all Key Personnel listed throughout the Item 52 and 53 descriptions?

A: Please include resumes for staff required in Exhibit A.

Q: The map you showed of locations has colored dots. Do they represent years and is there a legend that we can view to evaluate demand in certain locations.

A: The map shows the overall Off System Bridge Bundling Program. The likely locations for the Item 54 advertised effort will be included in the extra information included with the PTB.

Q: Are these RFPs intended to be multidisciplinary including financial advisory and legal advisory services?

A: These services are not required but may be included.

Q: Will selection committee be different for SPMO items than typical bulletin items? Will District's be involved in decision process?

A: Selection committee is the same as the PTB selection committee.

Q: Is the team stagnant? Can the selected prime add team members after selection, similar to other GECs? Given that there are 2 GECs how do task orders work? Is the most conflicted GEC overlooked and the task order given to the other GEC?

A: The contracts will be task order based contracts. Potential conflicts of interest will be considered when assigning work order tasks.

Q: What key performance metrics or scoring if you will has the department identified for selection and what metrics have been identified for successful performance of the contract.

A: Please refer to the selection categories and percentages.

Q: Will the Financial and Project Controls under Shared Support Services in the Org Chart be procured under a different contract?

A: Please submit the team member and firms with the prequalification categories requested in the PTB.

Q: Taking interviews in consideration, when are you expecting to award these items?

A: Award will be at the same time as the rest of the PTB.

Q: Can you clarify interviews for item 52 and 53?

A: Shortlisted firms will be asked for a 30 minute presentation plus 15 minutes for Q and A.

Q: Will interview be typical 30 minute oral + 15 min Q and A?

A: Yes, 30 minutes for presentation, and 15 minutes allotted for Q&A.

Q: Will interviews be open for public viewing?

A: No.

Q: Are these lump sum contracts or will each task order need to be negotiated up to an upper limit of compensation of \$36.5M?

A: Both item 52 and 53 are task order contracts. Both item 52 and 53 are cost plus fixed fee. They are not lump sum contracts.

Q: How does Item 55 relate to the previously selected OR Contract?

A: Item 55 is a task order contract. Work will be assigned via task order.

Q: Will there be labor rate caps for all Key Staff?

A: We anticipate utilizing the current labor rate caps unless there is a unique circumstance necessitating a deviation.

Q: Is a firm primes for items 52 and 53, can they be a subconsultant in item 54?

A: Yes.

Q: Will management activities from the prime on Item 52 or 52 of a sub preclude the prime from pursuing phases of those projects?

A: See conflict of interest statement in the solicitation.

Q: To be clear, item 55 will require Prime qualifications in both Highways (Freeways) and Structures (Highway: Complex).

A: Correct.

Q: What key performance indicators has the department has identified both for selecting a successful team and also to determine successful performance?

A: Please refer to the scoring categories and percentages.

Q: Is that 6-8 shortlisted for each item 52/53? Or for both combined?

A: A combined total of between 6-8 firms is anticipated to be shortlisted for items 52 and 53. Firms are to submit identical submittals on both items be considered.

Q: If firms are a major sub on a GEC or PMO can they be selected as a prime on other PTB items

A: Yes.

Q: Can a firm be a prime on 52 and a sub on 53?

A: Yes.

Q: Will the multi year include the next fiscal period MYP as well

A: Please refer to the PTB.

Q: What outcomes would IDOT like to see in the first year that would indicate the GEC is providing value?

A: Please refer to the PTB.

July 31, 2026

STRATEGIC PROGRAM MANAGEMENT OFFICE

IDOT PTB 221

Item 52 Job No. N-52-001-27

Various Phase I/II/III Support Professional Service Projects General Engineering Consultant (GEC), Various Routes, Various Counties, Strategic Program Management Office.

Item 53 Job No. N-52-002-27

Various Phase I/II/III Support Professional Service Projects General Engineering Consultant (GEC), Various Routes, Various Counties, Strategic Program Management Office.

Item 54 Job No. N-52-003-27

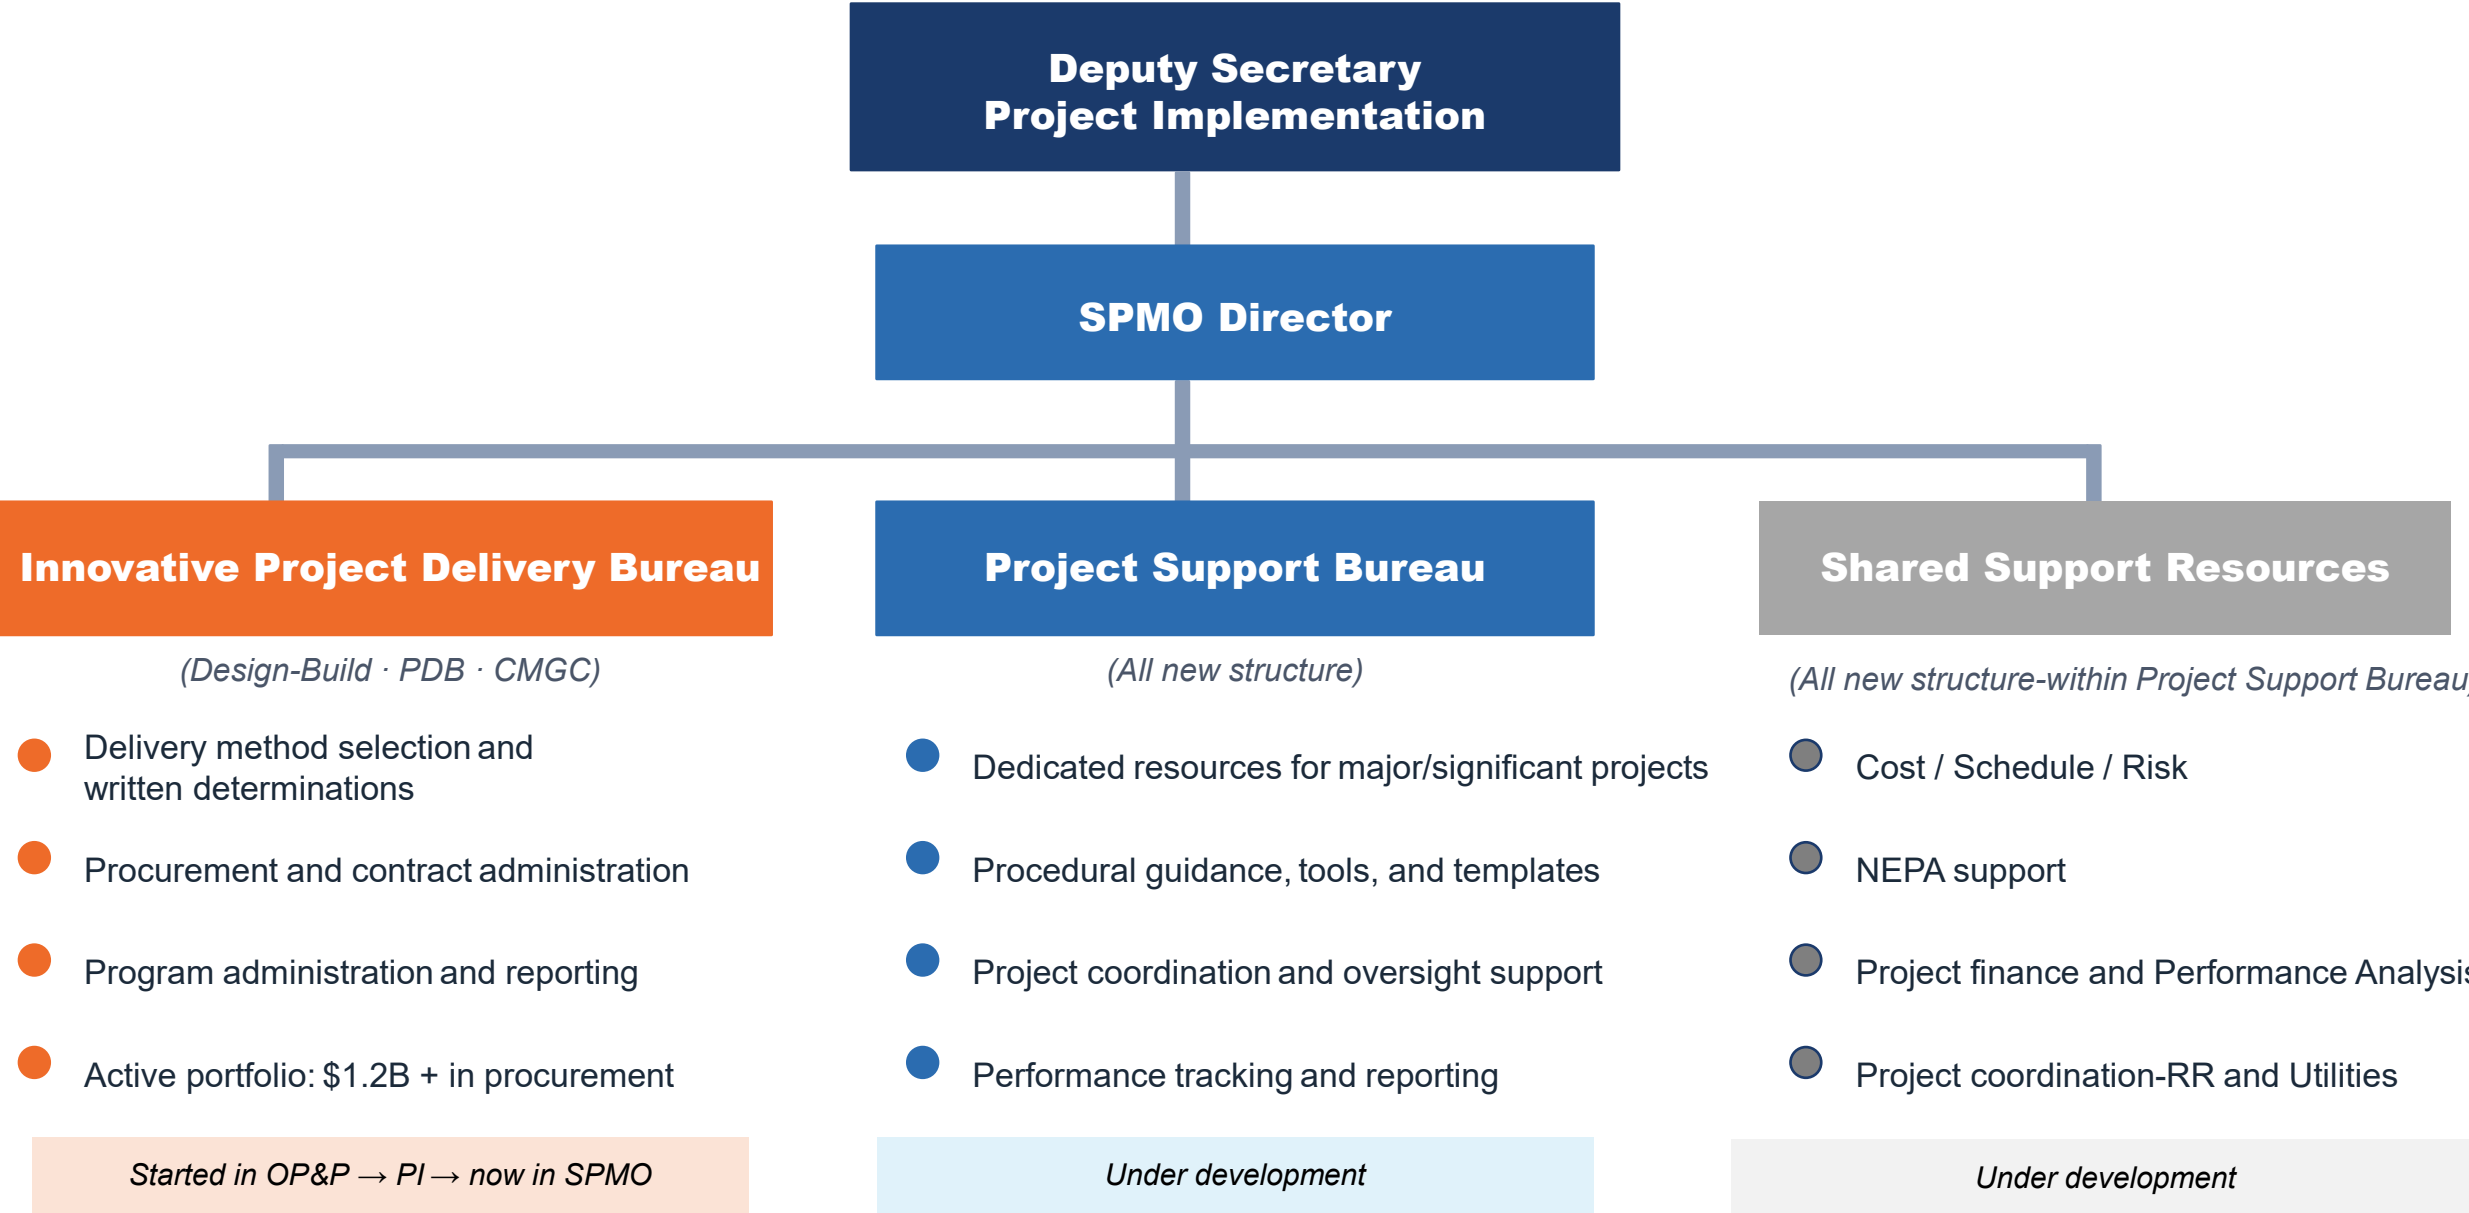

Various Phase III Construction Oversight Service Projects, Various Routes, Various Counties, State-wide, Bureau of Innovative Project Delivery.

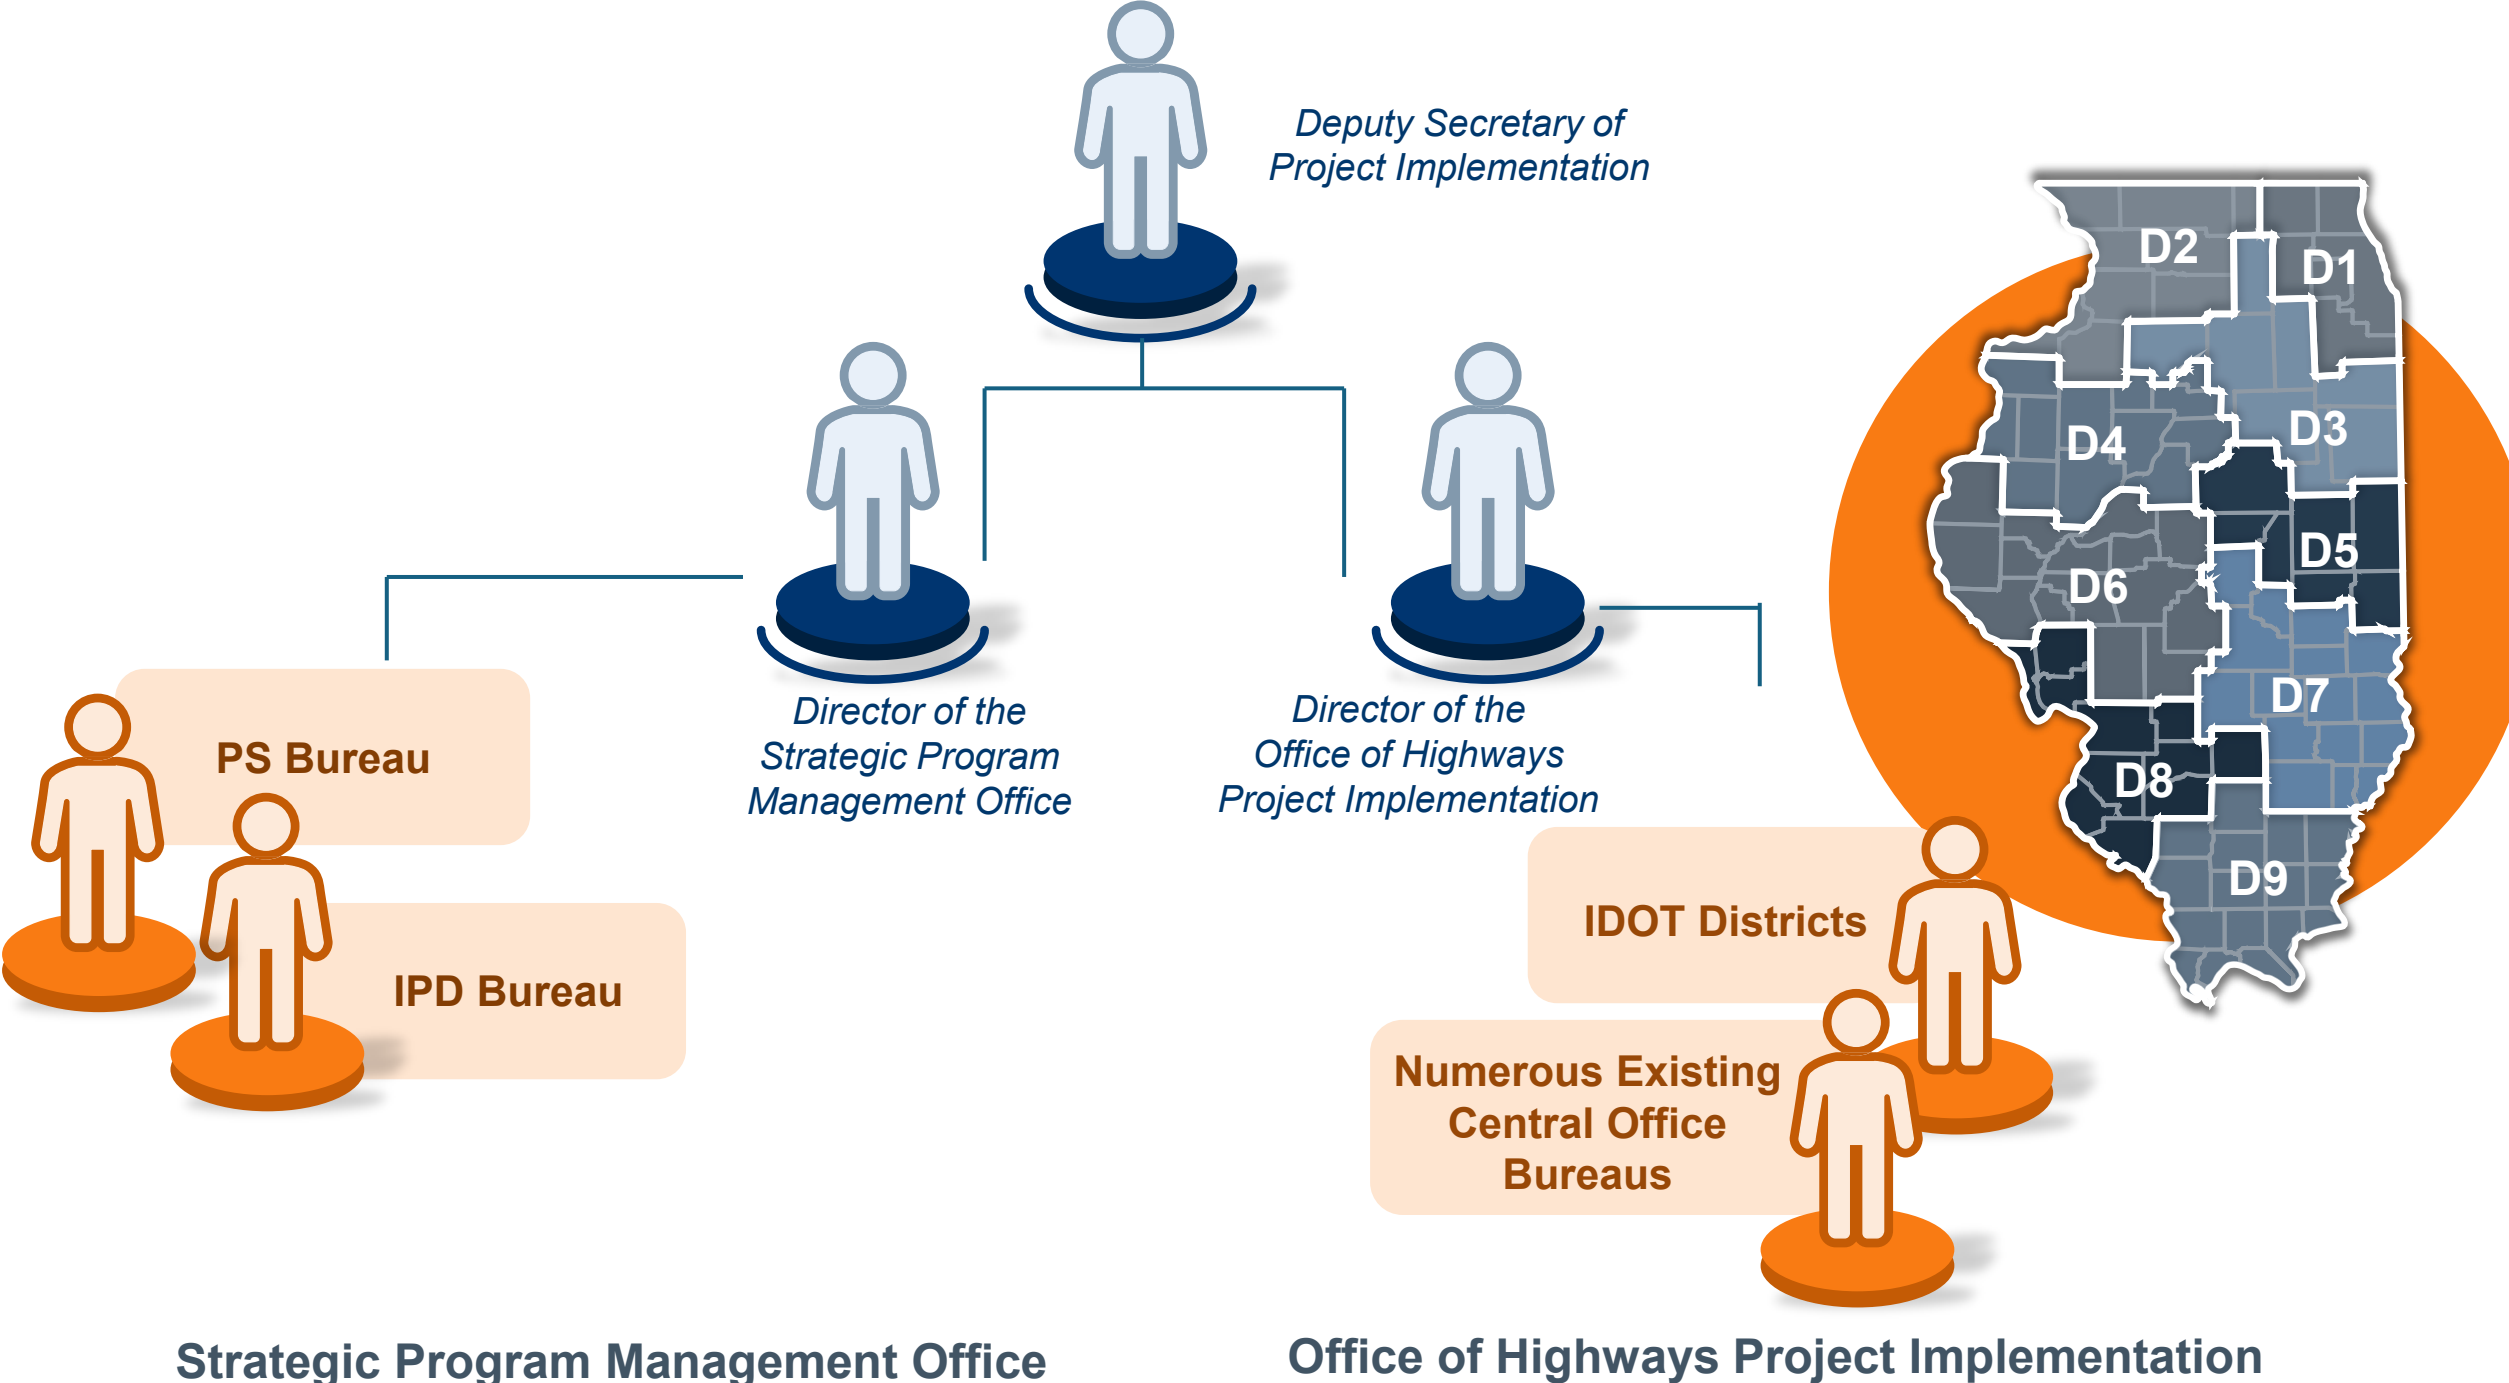

Item 55 Job No. N-52-004-27

Various Phase I/II/III Program Support Service Projects Consultant (PSS) Services, Various Routes, Various Counties, Bureau of Innovative Project Delivery.

STRATEGIC PROGRAM MANAGEMENT OFFICE STRUCTURE

Strategic Program Management Office

Office of Highways Project Implementation

Strategic Program Management Contracts

GENERAL ENGINEERING SUPPORT

PROGRAM SUPPORT SERVICES

CONSTRUCTION OVERSIGHT PHASE III SERVICES- OFF SYSTEM BRIDGE BUNDLING PROGRAM

- Districts procure Design and Construction phase support.
- Opportunities at both the Central and District
- Not to be confused with other agency use of these contract types
 - Make sure all qualified personnel and pre-qualifications are included

Conflict of Interest

GENERAL ENGINEERING SUPPORT (two identical contracts)

PROGRAM SUPPORT SERVICES

CONSTRUCTION OVERSIGHT PHASE III SERVICES- OFF SYSTEM BRIDGE BUNDLING PROGRAM

- Task Order based. The conflicts will be per task not for participation on the overall contract
- **Program work** will be separated from **project specific work** assignments
- COI will apply for project specific work assignments which lead to substantial efforts used by the Department to procure other work

General Engineering Support Contracts

Anticipated Contract Details:

- \$36.5 M each
- 5 Year Term
- No Renewal included

Anticipated Contract Work Types:

- Program Support
- Project Support

- Item 52 and Item 53 are identical
- Firms shall submit identical proposals on both
- Shortlisted teams will be interviewed
 - 1 interview per team

Program Support Services Contract

Anticipated Contract Details:

- \$20 M
- 5 Year Term
- No Renewal included

Anticipated Contract Work Types:

- IPD Program Support
- IPD Project Support

- Item 55
- Support Innovative Project Delivery Bureau
- Shortlisted teams will be interviewed

IPD Projects & Candidates

- **DISTRICT 1**

- I-290 (Des Plaines River to Austin Blvd) – **CMGC** (Supplemental Trunk Sewer)

- **DISTRICT 2**

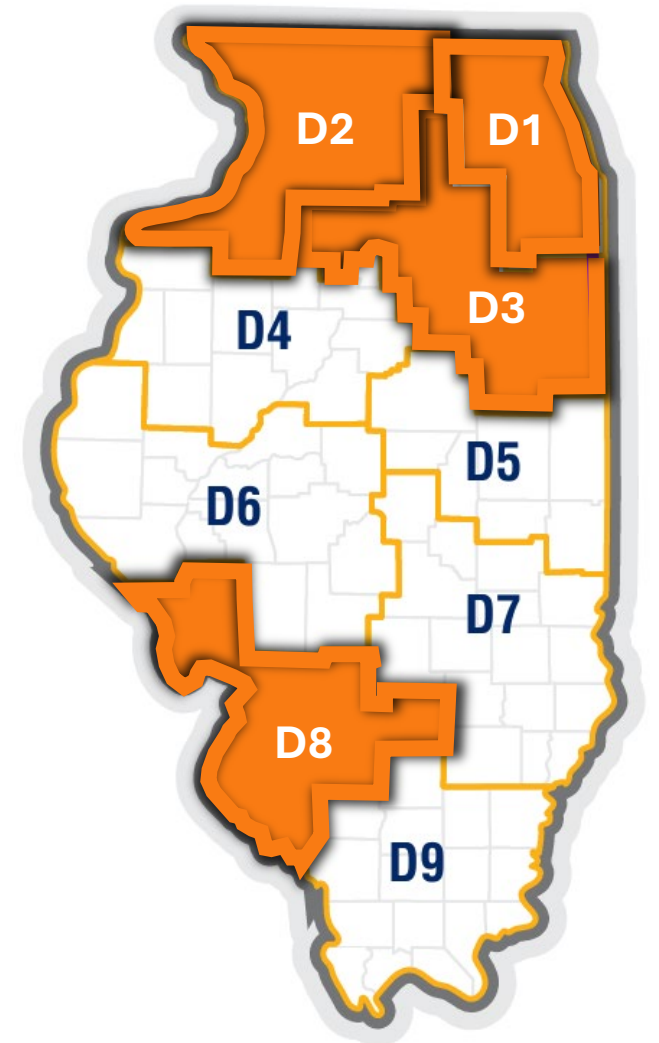

- US 30 through Morrison, IL – **TBD** (Corridor Reconstruction)
- I-39 over Kishwaukee River – **PDB** (Bridge Replacement)

- **DISTRICT 3**

- US 34 over Little Indian Creek & US 52 over Fox River Bridges – **Design-Build** (Bridge Replacement)

- **DISTRICT 8**

- IL 15/4 over Kaskaskia River – **CMGC** (Bridge Replacement)
- I-270 (0.2 mi E of IL 111 to 0.5 mi E of I-55/70) – **Design-Build** (Designed Overlay, Resurfacing, Bridge Replacement, Ramp Repair & Sign Maintenance)
- I-55 (Mississippi River to I-64 Interchange) – **TBD** (Bridge Replacement, Bridge Deck Overlay, Joint Replacement/Repair, Bridge Painting & Pavement Reconstruction)

Construction Oversight Support for Off System Bridge Bundling Program

Anticipated Contract Details:

- \$6 M
- 5 Year Term

Anticipated Contract Work Types:

- Program Support
- Project Support

- Item 54
- Will Support the Construction Phase III Oversight of a portion of the Off System Bridge Bundling Program
- Teams **will not** be interviewed

Off-System Structure Screening Results Map

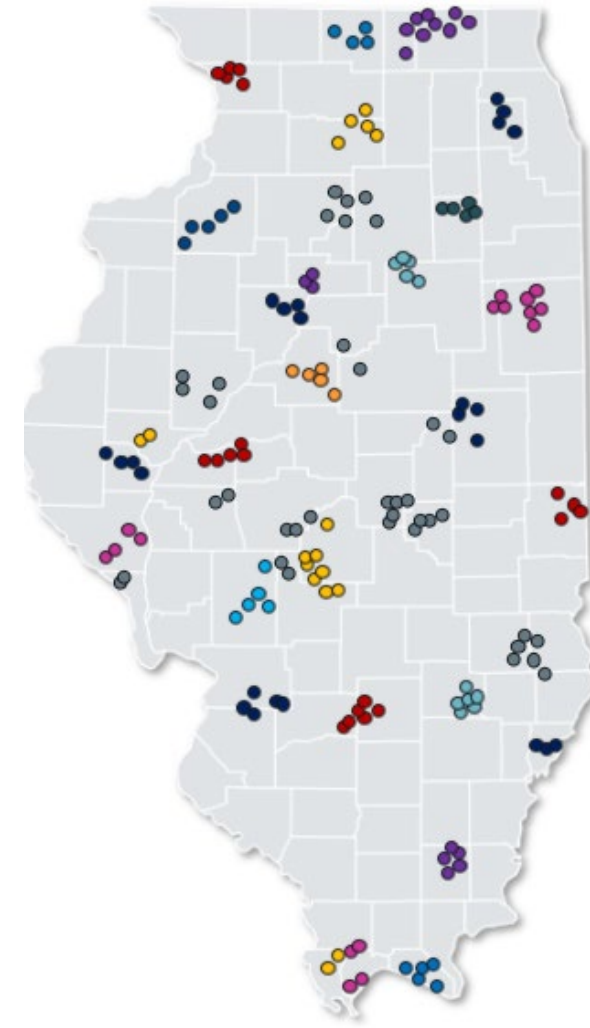

The program includes **180** structures grouped into 31 bundles spread out across the state.

The bundles cover all **9** IDOT Districts.

There are **49** different counties with at least one structure included in the program.
