Revised 4/6/2026

REMOVAL AND DISPOSAL OF REGULATED SUBSTANCES (PROJECT SPECIFIC)

Description. This work shall consist of the removal and disposal of regulated substances according to Section 669 of the Standard Specifications as revised below.

Contract Specific Sites. The excavated soil and groundwater within the areas listed below shall be managed as either “uncontaminated soil”, hazardous waste, special waste or non-special waste. For stationing, the lateral distance is measured from centerline and the farthest distance is the offset distance or construction limit, whichever is less.

Soil Disposal Analysis. When the waste material requires sampling for landfill disposal acceptance, the Contractor shall secure a written list of the specific analytical parameters and analytical methods required by the landfill. The Contractor shall collect and analyze the required number of samples for the parameters required by the landfill using the appropriate analytical procedures. A copy of the required parameters and analytical methods (from landfill email or on landfill letterhead) shall be provided as Attachment 4A of the BDE 2733 (Regulated Substances Final Construction Report). The price shall include all sampling materials and effort necessary for collection and management of the samples, including transportation of samples from the job site to the laboratory. The Contractor shall be responsible for determining the specific disposal facilities to be utilized; and collect and analyze any samples required for disposal facility acceptance using a NELAP certified analytical laboratory registered with the State of Illinois.

Intersection of IL 59 and Artesian Road, Naperville, DuPage County

- All excavation planned at the northeast quadrant and southeast quadrant at the intersection of IL 59 and Artesian Road. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(1). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of IL 59 and Garden Center Driveway, Naperville, DuPage County

- All excavation planned at the northwest quadrant and southwest quadrant at the intersection of IL 59 and the Garden Center driveway. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(1). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of IL 59 and 87th Street / White Eagle Drive, Naperville, DuPage County

- All excavation planned at the northeast quadrant, southwest quadrant, and southeast quadrant at the intersection of IL 59 and 87th Street / White Eagle Drive . The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(1). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of IL 59 and Macom Drive / Springbrook Square Drive, Naperville, DuPage County

- All excavation planned at the northwest quadrant, northeast quadrant, southwest quadrant, and southeast quadrant at the intersection of IL 59 and Macom Drive / Springbrook Square Drive. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(1). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of IL 59 and 83rd Street / Montgomery Road, Naperville, DuPage County

- All excavation planned at the northwest quadrant, southwest quadrant, and southeast quadrant at the intersection of IL 59 and 83rd Street / Montgomery Road. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(1). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of IL 59 and Lowe's Driveway, Naperville, DuPage County

- All excavation planned at the northeast quadrant and southeast quadrant at the intersection of IL 59 and the Lowe's driveway. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(1). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of IL 59 and Beebe Drive, Naperville, DuPage County

- All excavation planned at the northeast quadrant at the intersection of IL 59 and Beebe Drive. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(5). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.
- All excavation planned at the southeast quadrant at the intersection of IL 59 and Beebe Drive. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(1). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of IL 59 and Costco Driveway, Naperville, DuPage County

- All excavation planned at the northeast quadrant and southeast quadrant at the intersection of IL 59 and the Costco driveway. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(1). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of IL 59 and 75th Street, Naperville / Aurora, DuPage County

- All excavation planned at the southwest quadrant, southeast quadrant, and southeast island at the intersection of IL 59 and 75th Street. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(1). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.
- All excavation planned at the northwest quadrant, northeast quadrant, and northeast island at the intersection of IL 59 and 75th Street. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(5). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of IL 59 and Home Depot Driveway, Naperville, DuPage County

- All excavation planned at the northeast quadrant at the intersection of IL 59 and the Home Depot driveway. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(5). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.
- All excavation planned at the southeast quadrant at the intersection of IL 59 and the Home Depot driveway. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(1). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of IL 59 and Audrey Avenue, Naperville, DuPage County

- All excavation planned at the northeast quadrant, southeast quadrant, and east leg median at the intersection of IL 59 and Audrey Avenue. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(1). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of IL 59 and Pep Boys Driveway, Naperville, DuPage County

- All excavation planned at the northeast quadrant and southeast quadrant at the intersection of IL 59 and the Pep Boys driveway. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(1). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of IL 59 and McCoy Drive, Naperville / Aurora, DuPage County

- All excavation planned at the southwest quadrant and southeast quadrant at the intersection of IL 59 and McCoy Drive. The Engineer has determined this material meets the criteria of and shall be managed in accordance with Article 669.05(a)(1). Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Work Zones

Three distinct OSHA HAZWOPER work zones (exclusion, decontamination, and support) shall apply to projects adjacent to or within sites with documented leaking underground storage tank (LUST) incidents, or sites under management in accordance with the requirements of the Site Remediation Program (SRP), Resource Conservation and Recovery Act (RCRA), or Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), or as deemed necessary. For this project, the work zones apply for the following ISGS PESA Sites:

None
