PREFORMED JOINT FILLER

Description. This work shall consist of furnishing all labor, equipment and materials required for the installation of preformed joint fillers to the size and at the locations specified in the plans.

Materials. The materials shall be according to Section 1051.03 for bituminous preformed joint filler. The Contractor shall submit the Manufacturer's material certification documentation stating that their materials meet the applicable requirements of this specification.

Construction Methods. The Contractor shall install the preformed joint filler as specified in the plans and per the manufacturer's instructions.

Method of Measurement. This work will be measured for payment in place, in feet, along the centerline of the joint.

Basis of Payment. This work will be paid for at the contract unit price per Foot for PREFORMED JOINT FILLER.
