PRECAST CONCRETE BOX CULVERTS 15' X 6' (SPECIAL)	.63

PRECAST CONCRETE BOX CULVERTS 15' X 6' (SPECIAL)

<u>Description:</u> This item shall include the furnishing of all materials and the necessary labor to construct and erect the completed box culvert as specified on the plans and as specified herein.

<u>Construction</u>: Precast Concrete Box Culverts 15'x6' (Special) shall be constructed in accordance with applicable articles of Section 540, 1042.05, and 1042.16.

The Contractor shall submit cross-section dimensions furnished by the precast supplier prior to fabrication. The non-standard dimensions may require the precast concrete supplier to alter reinforcement bar layouts and slab and wall dimensions from that of standard precast concrete box culvert sizes. If the wall or slab dimensions recommended by the precast supplier differ from those assumed in the design plans, the contractor shall contact the engineer for approval prior to fabrication of the precast concrete box culvert.

Method of Measurement: This work shall be measured in place per lineal foot of box culvert.

<u>Basis of Payment:</u> This work will be paid for at the contract unit price per foot for PRECAST CONCRETE BOX CULVERTS 15' X 6' (SPECIAL), which price shall be full compensation for all labor equipment and materials required for performing the work as specified herein and as detailed on the plans.
