Addendum A

NOTICE TO PROSPECTIVE BIDDERS

Attached is an addendum to the plans or proposal. This addendum involves revised and/or added material.

Reason for Addendum:

The following addendum adds special provisions for the line item AR801720 – Provide and Install New Two (L-867B) Can Junction Can Plaza.

To All Plan Holders:

The following addendum changes the following:

Special Provisions Changes:

Method of Measurement:

ADD: The accepted quantity of electrical handholes and junction can plazas will be paid for at the Contract unit price per each, complete and in place. This price shall be full compensation for furnishing all materials and for all preparation, excavation, backfilling and placing of the materials, furnishing and installation of appurtenances and connections to duct banks and other structures as may be required to complete the item as shown on the plans and for all labor, equipment, tools and incidentals necessary to complete the structure.

Basis of Payment:

ADD: Item AR801720 – Provide and Install New Two (L-867B) Can Junction Can Plaza

DELETE: Item AS801714 – Provide and Install New H-20 Load Rated Concrete Handhole – per each

Prime contractors must utilize the enclosed material when preparing their bid and must include any changes to the Schedule of Prices in their bid.

Questions on this addendum may be directed to Luke Burlingame of Kimley-Horn at 331-310-0368.

ITEM 115 ELECTRICAL MANHOLES AND JUNCTION STRUCTURES

METHOD OF MEASUREMENT

115-4.1

All coring, interface and labor associated with conduit, duct, cable in unit duct, and/or cable entries; locating existing utilities, lines, and cables in the respective areas of work; and all coordination with the respective Airport staff, site personnel, and/or FAA personnel will be considered incidental to the respective item for which they are installed, and no additional compensation will be made. Conduits, conduit nipples, conduit couplings, and other conduit fittings included with handholes, junction structures, and/or splice cans, will be considered incidental to the respective item for which they are installed, and no additional compensation will be made. Ground rods, grounding electrode conductors, connections, and associated grounding work included with handholes, junction structures, and/or splice cans, will be considered incidental to the respective item for which they are installed, and no additional compensation will be made. All removals, relocations, adjustments, and associated work to accommodate handhole, junction structure, and/or splice can relocations will be considered incidental to the respective item for which they are installed, and no additional compensation will be made.

All lockout/tagout procedures to ensure and maintain safety of personnel will be considered incidental to the respective item of work for which it applies, and no additional compensation will be allowed.

The accepted quantity of electrical handholes and junction can plazas will be paid for at the Contract unit price per each, complete and in place. This price shall be full compensation for furnishing all materials and for all preparation, excavation, backfilling and placing of the materials, furnishing and installation of appurtenances and connections to duct banks and other structures as may be required to complete the item as shown on the plans and for all labor, equipment, tools and incidentals necessary to complete the structure.

BASIS OF PAYMENT

115-5.1
