

Special Provision Changes Jul & Sept 2026 Lettings

BDE	Name	Description
250.07 (Revised)	SEEDING (BDE)	This special provision should be inserted into all contracts with SEEDING or INTERSEEDING.
420.09 (Revised)	LONGITUDINAL TINING (BDE)	This special provision should be inserted into contracts containing portland cement concrete pavement, continuously reinforced portland cement concrete pavement, and portland cement concrete shoulders.
421.04 (New)	TOLERANCE IN THICKNESS FOR CONTINUOUSLY REINFORCED PCC PAVEMENT (BDE)	This special provision should be inserted into all contracts with CONTINUOUSLY REINFORCED PORTLAND CEMENT CONCRETE PAVEMENT or CONTINUOUSLY REINFORCED HIGH-EARLY-STRENGTH PORTLAND CEMENT CONCRETE PAVEMENT.
701.06 (New)	WORK ZONE WIDTH RESTRICTION (BDE)	This special provision should be inserted into all contracts.

Dist 4 Special	Name	Description
440.00 (Revised)	HOT-MIX ASPHALT JOINT TRIMMING	Insert into projects where the 6" wider milling is requested. Include quantities for the extra 6" of milling, tacking, and surface in your schedule of quantities.
503.01 (Deleted)	GRANULAR BACKFILL FOR STRUCTURES	Replaced with D4 Special 586.02
503.19 (Revised)	PROTECTIVE COAT (SPECIAL)	Use this special when applying the "stretchy paint" listed below to the parapets of an existing structure (and other concrete items). Do not use unless requested by the Bridge Maintenance Engineer. This is NOT the standard Boiled Linseed Oil item. Also needed is the pay item SURFACE FILLER (SPECIAL).
586.02 (New)	GRANULAR BACKFILL FOR STRUCTURES	This Special Provision is intended to ensure the use of aggregates that facilitate drainage behind abutment structures and prevent obstruction of pipe underdrains. Please include in all contracts which require Granular Backfill for Structures.
