
Final Alternatives Report

Elgin O'Hare–West Bypass Project

Prepared for
Illinois Department of Transportation

May 2010

CH2MHILL

Contents

1.	Introduction.....	1-1
1.1	Study Overview.....	1-1
1.1.1	Study Area Description.....	1-2
1.1.2	Study Process.....	1-3
1.1.3	Relationship to Ongoing Studies and Planning Efforts.....	1-4
1.2	Organization of Report.....	1-6
1.2.1	Report Content Overview.....	1-6
1.2.2	Relationship to Other Study Documents and Project Decisions.....	1-7
2.	Alternatives Development and Evaluation Process.....	2-1
2.1	Alternatives Development Objectives.....	2-1
2.2	Alternatives Process Overview.....	2-1
2.2.1	Module 1 – Modal Strategies.....	2-1
2.2.2	Module 2 – Initial System Strategies.....	2-2
2.2.3	Module 3 – Finalist System Alternatives.....	2-2
2.2.4	Module 4 – Preferred System Alternative.....	2-3
2.3	CSS and Stakeholder Involvement.....	2-3
2.3.1	IDOT’s Context Sensitive Solution Policy Objectives.....	2-3
2.3.2	Overview of the Stakeholder Involvement Plan.....	2-4
2.4	Planning Framework.....	2-4
2.4.1	Regional Input and Assumptions.....	2-4
2.4.2	Transportation Problems.....	2-6
2.4.3	Guiding Principles for Alternatives Development.....	2-9
2.4.4	Alternatives Development and Evaluation Guidelines.....	2-11
3.	Modal Strategies (Module 1).....	3-1
3.1	Physical Improvement Strategies.....	3-1
3.2	Operating Improvement Strategies.....	3-1
3.3	Demand Management Strategies.....	3-6
3.4	Stakeholder Input.....	3-6
3.4.1	Stakeholder Input Opportunities for Module 1.....	3-6
3.4.2	Stakeholder Modal Strategies Recommendations.....	3-7
3.5	Next Steps.....	3-10
4.	Initial System Strategies (Module 2).....	4-1
4.1	Initial System Strategies Development and Evaluation Procedures.....	4-1
4.2	Initial System Strategies Considered.....	4-2
4.2.1	Initial Roadway System Strategies.....	4-2
4.2.2	Corridor Location and Access Variations.....	4-2
4.2.3	Initial Transit System Strategies.....	4-3
4.3	Initial Roadway System Strategies Evaluation.....	4-3
4.3.1	Improve Local and Regional Travel.....	4-3
4.3.2	Improve Travel Efficiency.....	4-6
4.3.3	Improve O’Hare West Access.....	4-7
4.3.4	Improve Modal Connection Opportunities.....	4-8

	4.3.5	Purpose and Need Evaluation Summary	4-9
	4.4	Stakeholder Input.....	4-10
	4.5	Conclusions and Recommendations	4-10
5.		Finalist System Alternatives and Build Alternatives (Module 3).....	5-1
	5.1	Alternatives Development and Evaluation Procedures	5-1
	5.1.1	Roadway System Alternatives Procedures	5-2
	5.1.2	Transit System Alternatives Procedures.....	5-9
	5.2	Initial Roadway System Alternatives.....	5-11
	5.3	Initial Roadway System Alternatives Evaluation.....	5-13
	5.4	Finalist Roadway System Alternatives	5-14
	5.4.1	Corridor Sizing.....	5-14
	5.4.2	Off-System Traffic Impacts and Expanded Study Area	5-15
	5.4.3	Representative Corridor Conceptual Layout.....	5-17
	5.4.4	North and South Connection Options	5-26
	5.4.5	Structure Concept Locations	5-29
	5.4.6	Drainage Concept Studies	5-30
	5.4.7	Freight Rail Studies.....	5-33
	5.5	Finalist Roadway System Alternatives Evaluation	5-36
	5.5.1	Travel Performance and Design Feasibility	5-36
	5.5.2	Initial Estimated Cost	5-41
	5.5.3	Environmental and Socioeconomic Impacts.....	5-43
	5.5.4	Finalist Roadway System Alternatives Screening.....	5-44
	5.5.5	North and South Connection Options Evaluation.....	5-48
	5.6	Transit System Alternatives	5-51
	5.6.1	Level One Transit Alternatives	5-51
	5.6.2	Level Two Transit Alternatives.....	5-53
	5.6.3	Transit System Alternatives Evaluation Summary	5-56
	5.7	Build Alternatives	5-56
	5.7.1	Alternative 203	5-58
	5.7.2	Alternative 402	5-65
	5.7.3	Multimodal Elements.....	5-65
	5.8	Build Alternatives Evaluation.....	5-73
	5.8.1	Travel Forecasts and Systemwide Travel Performance.....	5-73
	5.8.2	Estimated Cost.....	5-76
	5.8.3	Environmental and Socioeconomic Impacts.....	5-78
	5.9	Stakeholder Input.....	5-80
6		The Preferred System Alternative (Module 4)	6-1
	6.1	The Preferred Alternative Selection	6-1
	6.1.1	South Bypass Connection Options	6-1
	6.1.2	Alternatives 203 and 402.....	6-2
	6.1.3	Multi-Modal Improvements.....	6-5
	6.2	Refinements to Representative Roadway Layout	6-6
	6.3	Tier One Stakeholder Issues and Requirements.....	6-7
	6.4	Summary of Stakeholder Input.....	6-11
	6.5	Next Steps	6-12

Tables

2-1	Elements of the EO-WB Stakeholder Involvement Plan	2-5
2-2	Summary of Stakeholder Input – Transportation Problems and Purpose and Need	2-7
2-3	Technical and Stakeholder Problem Statements	2-10
3-1	Physical Improvements – Roadway	3-2
3-2	Physical Improvements – Transit.....	3-3
3-3	Physical Improvements – Bicycle/Pedestrian Facilities	3-4
3-4	Operating Improvement Strategies.....	3-5
3-5	Demand Management Strategies	3-7
4-1	Systemwide Vehicle Hours of Delay	4-5
4-2	Congested Vehicle Miles of Travel: Secondary Roadways	4-5
4-3	Reduction in Travel Time	4-6
4-4	Interstate Access Improvements	4-7
4-5	Travel Time Savings: Representative O’Hare West Access Trips	4-8
4-6	Modal Connection Opportunities	4-9
4-7	Initial Roadway System Strategies Composite Score	4-10
4-8	Initial Roadway System Strategies Transportation Performance Comparison	
4-9	Summary of Stakeholder Input on Initial System Strategies	4-11
5-1	Evaluation Criteria	5-6
5-2	Initial Roadway System Alternatives Features	5-11
5-3	Initial Roadway System Alternatives Impact Analysis	
5-4	Initial Roadway System Strategies: Number of Potential Building Displacements.....	5-13
5-5	Supporting Improvements along Existing Roadways for Alternative 203	5-17
5-6	Finalist Roadway System Alternatives – Structure Summary	5-30
5-7	Potential Pump Station Locations	5-31
5-8	Estimated Stormwater Detention Requirements	5-32
5-9	Floodplain and Floodway Impacts	5-32
5-10	Finalist Roadway System Alternatives Evaluation: Improve Local and Regional Travel.....	5-37
5-11	Finalist Roadway System Alternatives Evaluation: Improve Travel Efficiency.....	5-38
5-12	Finalist Alternatives Evaluation: Improve O’Hare West Access.....	5-39
5-13	Finalist Roadway System Alternative Cost Summary	5-43
5-14	Environmental and Socioeconomic Impacts	5-45
5-15	Finalist Roadway System Alternatives – Total Scaled Score.....	5-46
5-16.1 to 5-16.5	Finalist Roadway System Alternatives Scaled Ranking and Scoring Data	
5-17	Impact Analysis - North Connection Options (IL 83 Freeway)	
5-18	Impact Analysis - North Connection Options (West Bypass)	
5-19.1 to 5-19.2	Impact Analysis - South Connection Options (Options A through G) and (Options A through D)	
5-20	Level One Screening Criteria	5-52
5-21	Alternatives Subject to Fatal Flaw and Level One Screening.....	5-54
5-22	Level Two Screening Criteria	5-55

Tables without page numbers are found at the end of each chapter.

5-23 Alternatives Subject to Level Two Screening.....5-57

5-24 Interchange Locations Alternative 203 and 402.....5-64

5-25.1 to 5-25.2 Build Alternatives Preliminary Structures and Retaining Walls

5-26 Proposed Transit Improvement.....5-66

5-27 Household and Employment Comparisons.....5-74

5-28 Systemwide Travel Performance Measures – Build Alternatives (Daily).....5-74

5-29 Systemwide Travel Performance Comparisons – 2030 No-Action and Build Alternatives (203 and 402)5-75

5-30 Build Alternative Cost Summary.....5-77

5-31 Summary of Environmental Consequences5-79

5-32 Summary of Stakeholder Input – Finalist System Alternative Development5-81

6-1 Environmental and Socioeconomic Consequences of Options A and D6-2

6-2 Build Alternatives Systemwide Travel Performance Comparisons6-3

6-3 Summary of Environmental Consequences6-3

6-4 Summary of Socioeconomic Impacts and Benefits.....6-5

6-5 Summary of Public, Municipality, and Agency Comments and Resolutions.....6-5

6-6 Summary of Stakeholder Input – Preferred Alternative6-12

Exhibits

1-1 Original Study Area and Revised Study Area Map

1-2 Elgin O’Hare – West Bypass Planning Process

1-3 Tier One Study Timeline

2-1 Alternative Development Modules

2-2 2030 Baseline – Roadway Projects Map

2-3 2030 Baseline – Transit Projects Map

2-4 2007 Existing and 2030 Baseline Population Density Map (Original Study Area)

2-5 2007 Existing and 2030 Baseline Employment Density Map (Original Study Area)

2-6 2007 Existing and 2030 Baseline Population Density Map

2-7 2007 Existing and 2030 Baseline Employment Density Map

2-8 Key Transportation Issues within the Study Area

3-1 Stakeholder Workshop Results – Existing Roadway Strategies

3-2 Stakeholder Workshop Results – Existing Transit and Freight System Strategies

3-3 Stakeholder Workshop Results – Existing Other Physical Elements

3-4 Stakeholder Workshop Results – Roadway System Expansion Strategies

3-5 Stakeholder Workshop Results – Transit and Freight System Expansion Strategies

3-6 Stakeholder Workshop Results – Expansion Other Physical Elements

3-7 Stakeholder Workshop Results – West Bypass Corridor Location Options

3-8 Stakeholder Workshop Results – Operating Technologies, Techniques and Demand Management Strategies

3-9 Stakeholder Workshop Results – Systemwide Improvement Strategies

-
- 4-1 Existing System Strategies – Alt 101, Arterial Improvements with Thorndale Avenue
 - 4-2 Existing System Strategies – Alt 102, Arterial Improvements with Devon Avenue – York Road Ext.
 - 4-3 System Expansion Strategies – Alt 201, Elgin O'Hare with IL 83 and Partial Bypass
 - 4-4 System Expansion Strategies – Alt 202, Elgin O'Hare with IL 83 – North and Partial Bypass - South
 - 4-5 System Expansion Strategies – Alt 203, Elgin O'Hare and West Bypass
 - 4-6 System Expansion Strategies – Alt 204, Elgin O'Hare with IL 83 Bypass
 - 4-7 System Expansion Strategies – Alt 205, Elgin O'Hare with West Bypass – North and IL 83 Bypass – South
 - 4-8 Combination System Strategies – Alt 301, West Bypass with Thorndale Avenue – Improved Arterial
 - 4-9 Combination System Strategies – Alt 302, IL 83 Bypass with Thorndale Avenue with Improved Arterial
 - 4-10 Combination System Strategies – Alt 401, Elgin O'Hare with Partial Bypass – South and IL 83 Improved North
 - 4-11 Combination System Strategies – Alt 402, Elgin O'Hare with Partial Bypass – South and York Rd North
 - 4-12 Combination System Strategies – Alt 403, Elgin O'Hare with Partial Bypass – South and IL 83 Improved Arterial
 - 4-13 Combination System Strategies – Alt 404, Elgin O'Hare with Partial Bypass – North and IL 83 Improved – South
 - 4-14 Combination System Strategies – Alt 501, Elgin O'Hare with IL 83, York Road and IL 19 Improved Arterials
 - 4-15 Combination System Strategies – Alt 601, Existing Expressway Improvements with IL 83 and Thorndale Avenue Improved Arterials
 - 4-16 Initial Modal Strategies – Corridor Location and Access Variation Details, West Bypass South Leg
 - 4-17 Initial Modal Strategies – Corridor Location and Access Variation Details, West Bypass North Leg
 - 4-18 Initial Modal Strategies – Corridor Location and Access Variation Details, IL 83 Bypass - North IL 83 Leg
 - 4-19 Transit System Strategy Concepts
 - 4-20 Transit System Strategies, Strategies for Existing System Improvements
 - 4-21 Transit System Strategies, Combination Strategies – Option 1
 - 4-22 Transit System Strategies, Combination Strategies – Option 2
 - 4-23 Transit System Strategies, System Expansion Strategies
 - 4-24 Initial Roadway System Strategies, Travel Time Savings (Northwest)
 - 4-25 Initial Roadway System Strategies, Travel Time Savings (West)
 - 4-26 Initial Roadway System Strategies, Travel Time Savings (Southwest)
 - 4-27 Initial Roadway System Strategies, Interstate Travel Improvements
 - 4-28 Initial Roadway System Strategies, Composite Travel Savings – Trips 1 and 2
 - 4-29 Initial Roadway System Strategies, Population/Employment Served by Potential Dedicated Transit Corridors

4-30	Roadway Alternatives Remaining Under Consideration
5-1	Transit Three Step Screening Process
5-2	Initial Roadway System Alternatives
5-3.1 to 5-3.10	Initial Roadway System Alternatives Schematic Layouts
5-4	Stakeholder Workshop Input – Fatal Flaw Screening Results, West Bypass Corridors Dismissed
5-5.1 to 5-5.4	Typical Cross Section Treatments – Initial Roadway System Alternatives
5-6.1 to 5-6.10	Initial Roadway System Alternatives – Footprint Requirements and Impacts
5-7	Finalist Roadway System Alternatives
5-8.1 to 5-8.7	Finalist Roadway System Alternatives Schematics Layouts
5-9.1 to 5-9.3	Elgin O'Hare - West Bypass Corridor Sizing
5-10	Original and Revised Study Area
5-11	Supporting Improvement for Build Alternative 203/ South A and D
5-12.1 to 5-12.12	North Connection IL 83 Freeway, North Connection West Bypass and South Connection West Bypass
5-13.1 to 5-13.2	Freight Rail Features West Bypass Corridor North and South
5-14.1 to 5-14.2	System Interchange and Conceptual Cross Section (Alternative 404)
5-15	Elgin O'Hare Extension Terminus (Alternative 501)
5-16.1 to 5-16.7	Finalist Roadway System Alternatives – Environmental Features
5-17.1 to 5-17.2	Level One Transit Screening Examples
5-18	Results of Level One Transit Screening
5-19.1 to 5-19.2	Level Two Transit Screening Examples
5-20	Results of Level Two Transit Screening
5-21.1 to 5-21.3	Intermodal Transit Facilities
5-22.1 to 5-22.2	Build Alternatives 203 and 402
5-23.1 to 5-23.2	Bicycle/Pedestrian Improvements – Community and Regional Trails
6-1	Preferred System Alternative – Roadway Component
6-2	Preferred System Alternative – Transit Component
6-3	Preferred System Alternative – Bicycle/Pedestrian Component

Appendixes

A	Travel Demand Modeling and Forecasting Report
B	Stakeholder Meetings Summary
C	Roadway Concept Design Guidelines Memorandum
D	Finalist System Alternatives Preliminary Lane Requirements
E	Travel Redistribution and Supporting Improvement Requirements Memorandum
F	Finalist Roadway Alternatives Representative Layouts
G	Drainage Technical Memorandums: Pump Station Memorandum Stormwater Detention Analysis Memorandum Floodplain Encroachment Memorandum Drainage Evaluation of System Interchange at York Road Memorandum Willow Creek York Culverts Memorandum
H	Freight Rail Impacts Memorandum
I	Travel Performance Analysis: Elgin O'Hare Western Extension Options White Paper

	Off System Traffic Distribution of O'Hare West Bypass at Devon/Pratt Boulevard Interchange Memorandum
	Off System Traffic Distribution of O'Hare West Bypass at Franklin Avenue Interchange
J	FAA 7460 Review
K	Cost Analysis
	Finalist Roadway System Build Alternative Cost Analysis Memorandum
	Build Alternative Transit Improvement Cost Analysis Memorandum
L	West Bypass South Connection Hybrid Options White Paper
M	Transit Alternatives Development and Evaluation Memorandum
N	Build Alternative/Preferred Alternative Representative Layout and Working Profiles
