<b>Executive Summary</b> .....	<b>ES-1</b>
<b>1. Purpose of and Need for Improvements</b> .....	<b>1-1</b>
1.1 Background .....	1-1
1.2 Transportation Purpose and Need .....	1-2
1.2.1 Regional and Local Travel.....	1-3
1.2.2 Travel Efficiency .....	1-5
1.2.3 Access to O’Hare Airport from the West .....	1-7
1.2.4 Modal Opportunities and Connections.....	1-8
<b>2. Alternatives</b> .....	<b>2-1</b>
2.1 Alternatives Development Process.....	2-2
2.1.1 Facility Type Alternates.....	2-4
2.1.2 Design Alternates .....	2-5
2.2 Description of the Alternatives .....	2-16
2.2.1 No-Build Alternative.....	2-16
2.2.2 Build Alternative .....	2-17
2.3 Comparison of No-Build and Build Alternatives.....	2-39
2.4 Implementation .....	2-41
2.4.1 Construction Sequencing.....	2-41
2.4.2 Financing .....	2-43
<b>3. Environmental Resources, Impacts, and Mitigation</b> .....	<b>3-1</b>
3.1 Social Characteristics .....	3-2
3.1.1 Affected Environment.....	3-2
3.1.2 Environmental Consequences .....	3-7
3.2 Economic Conditions.....	3-12
3.2.1 Affected Environment.....	3-12
3.2.2 Environmental Consequences .....	3-14
3.2.3 Indirect and Cumulative Economic Impacts .....	3-26
3.2.4 Measures to Minimize Harm and Mitigation.....	3-35
3.3 Land Use.....	3-37
3.3.1 Affected Environment.....	3-37
3.3.2 Environmental Consequences .....	3-38
3.3.3 Indirect and Cumulative Land Use Impacts.....	3-44
3.3.4 Measures to Minimize Harm and Mitigation.....	3-44
3.4 Special Land Uses.....	3-44
3.4.1 O’Hare Airport.....	3-44
3.4.2 Bensenville Yard .....	3-55
3.4.3 Metropolitan Water Reclamation District of Greater Chicago Flood Storage Reservoirs .....	3-57
3.4.4 WBBM/CBS AM Radio Towers .....	3-58

3.5	Public Facilities and Services .....	3-60
3.5.1	Affected Environment .....	3-60
3.5.2	Environmental Consequences.....	3-62
3.5.3	Construction Impacts .....	3-66
3.5.4	Measures to Minimize Harm and Mitigation .....	3-66
3.6	Agriculture.....	3-67
3.7	Cultural Resources.....	3-67
3.8	Noise.....	3-68
3.8.1	Affected Environment .....	3-68
3.8.2	Environmental Consequences.....	3-70
3.8.3	Measures to Minimize Harm and Mitigation .....	3-72
3.9	Air Quality .....	3-83
3.9.1	Affected Environment .....	3-83
3.9.2	Environmental Consequences.....	3-84
3.9.3	Measures to Minimize Harm and Mitigation .....	3-92
3.10	Water Resources and Aquatic Habitats.....	3-93
3.10.1	Affected Environment .....	3-93
3.10.2	Environmental Consequences.....	3-111
3.10.3	Measures to Minimize Harm and Mitigation .....	3-125
3.10.4	Indirect and Cumulative Water Resource Impacts .....	3-133
3.11	Groundwater .....	3-138
3.11.1	Affected Environment .....	3-138
3.11.2	Environmental Consequences.....	3-140
3.11.3	Measures to Minimize Harm and Mitigation .....	3-141
3.12	Floodplains .....	3-142
3.12.1	Affected Environment .....	3-142
3.12.2	Environmental Consequences.....	3-144
3.12.3	Measures to Minimize Harm and Mitigation .....	3-150
3.13	Wetlands .....	3-152
3.13.1	Affected Environment .....	3-152
3.13.2	Environmental Consequences.....	3-162
3.13.3	Measures to Minimize Harm and Mitigation .....	3-166
3.13.4	Indirect and Cumulative Wetland Impacts.....	3-176
3.14	Natural Resources.....	3-177
3.14.1	Affected Environment .....	3-177
3.14.2	Environmental Consequences.....	3-191
3.14.3	Measures to Minimize Harm and Mitigation .....	3-200
3.14.4	Indirect and Cumulative Natural Resource Impacts .....	3-203
3.15	Section 4(f) .....	3-204
3.15.1	Affected Environment .....	3-205
3.15.2	Environmental Consequences.....	3-206
3.15.3	Application of Section 4(f) .....	3-207
3.16	Special Waste.....	3-209
3.16.1	Affected Environment .....	3-209
3.16.2	Environmental Consequences.....	3-212
3.16.3	Measures to Minimize Harm and Mitigation .....	3-215

3.17	Visual Resources.....	3-216
3.17.1	Affected Environment.....	3-216
3.17.2	Environmental Consequences .....	3-218
3.17.3	Measures to Minimize Harm and Mitigation.....	3-218
3.18	Short-Term Use and Long-Term Productivity .....	3-219
3.19	Irreversible and Irrecoverable Commitment of Resources .....	3-220
3.20	Permits and Approvals.....	3-220
3.20.1	Section 404 of the Clean Water Act .....	3-221
3.20.2	Section 401 of the Clean Water Act .....	3-221
3.20.3	Soil and Water Conservation District Review of Erosion and Sedimentation Control Plans .....	3-222
3.20.4	National Pollutant Discharge Elimination System Construction Permit .....	3-222
3.20.5	General National Pollutant Discharge Elimination System Permit for Pesticide Application Point Source Discharges.....	3-222
3.20.6	Floodway and Floodplain Construction Permits.....	3-223
3.20.7	Interagency Wetland Policy Act-Related Approval .....	3-223
3.20.8	Federal Aviation Administration Concurrent Land Use Approval .....	3-223
3.20.9	O'Hare Airport Layout Plan Update .....	3-223
3.20.10	Federal Aviation Administration 7460 Review .....	3-223
3.20.11	Federal Highway Administration Section 129 Compliance and Approval.....	3-224
3.20.12	Federal Highway Administration Access Justification Report.....	3-224
3.21	Environmental Commitments .....	3-224
3.22	Summary of Environmental Consequences .....	3-228
<b>4.</b>	<b>Agency Coordination and Public Involvement .....</b>	<b>4-1</b>
4.1	Public and Agency Coordination Requirements and Communication Strategy ....	4-1
4.1.1	Legal Requirements.....	4-1
4.1.2	Objectives.....	4-2
4.1.3	Outreach Methods .....	4-2
4.2	Public and Agency Coordination.....	4-5
4.2.1	Project Initiation.....	4-5
4.2.2	Purpose and Need Development .....	4-10
4.2.3	Identification of the Range of Alternatives to be Considered .....	4-11
4.2.4	Other Coordination .....	4-16
<b>5.</b>	<b>References .....</b>	<b>5-1</b>
<b>6.</b>	<b>List of Preparers.....</b>	<b>6-1</b>
<b>Tables</b>		
ES-1	2040 No-Build Alternative Travel Performance Compared to 2040 Build Alternative .....	ES-17
ES-2	Comparison of Percent of Daily Congested Vehicle Miles of Travel for No-Build and Build Alternatives .....	ES-18

ES-3	Summary of Environmental Consequences of the Build Alternative .....	ES-25
1-1	Technical and Stakeholder Problem Statements .....	1-2
1-2	Study Area Daily Trips by Trip Origin and Destination: 2010 and 2040 .....	1-3
1-3	Traffic Congestion P.M. Peak Period: 2010 and 2040 .....	1-4
1-4	Travel Time/Speed from the West Side of O'Hare Airport to Study Area Locations .....	1-6
2-1	Local Cross Roads .....	2-9
2-2	Transit Corridor Pros and Cons Analysis .....	2-12
2-3	Comparison of Intersection Alternates at IL 72 and Elmhurst Road.....	2-26
2-4	New Frontage Roads .....	2-27
2-5	Transit Parking and Access .....	2-32
2-6	TSM and TDM Strategies.....	2-35
2-7	Roadway Cost Summary .....	2-38
2-8	Build Alternative Travel Performance Compared to No-Build Alternative .....	2-39
2-9	Comparison of Percent of Daily Congested Vehicle Miles of Travel for No-Build and Build Alternatives .....	2-40
3-1	Population Changes Over Time in the Affected Communities and Counties .....	3-3
3-2	2005-2009 Income Characteristics of the Project Area .....	3-5
3-3	Comparison of the Demographics of the Core Communities in the EO-WB Project Area to DuPage and Cook Counties and the State of Illinois.....	3-6
3-4	Demographic Characteristics of the Project Corridor.....	3-9
3-5	2005-2009 Income Characteristics of the Project Corridor .....	3-10
3-6	Employment by Industry for the Seven-County Chicagoland Region .....	3-13
3-7	Percent of Civilian Workforce Unemployed.....	3-13
3-8	Business and Employee Displacements along the Build Alternative.....	3-15
3-9	Other Business Impacts.....	3-20
3-10	Land Use within Proposed Right-of-Way .....	3-21
3-11	Economic Impacts during Construction Period .....	3-24
3-12	Economic Impacts (2010 dollars) .....	3-25
3-13	Cumulative Economic Impacts (2010 dollars) .....	3-29
3-14	Long-Term Economic Impacts for the Project Area .....	3-30
3-15	Net Long-Term Economic Impacts by Community (2040) .....	3-33
3-16	Tax Revenue Impacts by Community .....	3-34
3-17	Annual Vehicle Operation Savings, Build Alternative.....	3-35
3-18	School Districts Serving the Project Corridor .....	3-61
3-19	Noise Abatement Criteria .....	3-69
3-20	Common Noise Environments.....	3-71
3-21	Summary of Proposed Noise Mitigation: Barrier Descriptions.....	3-74
3-22	Summary of Barrier Cost Reasonableness Analysis .....	3-76
3-23	Annual PM <sub>2.5</sub> Design Value Concentrations in µg/m <sup>3</sup> .....	3-86
3-24	Daily Project Area MSAT Emissions in Pounds per Day.....	3-88
3-25	Annual Project GHG Emissions in Million Metric Tons CO <sub>2</sub> Equivalent per Year .....	3-90
3-26	Watershed Land Use Summary .....	3-94
3-27	Project Corridor Water Body Summary .....	3-95
3-28	Summary of the Physical Parameters of Project Corridor Creeks .....	3-98

3-29	Summary of the Biological Characteristics of Project Corridor Creeks .....	3-99
3-30	Use Support and Impairment Summary for Project Corridor Water Bodies.....	3-103
3-31	Urban Stormwater Runoff Quality for TSS and Metals .....	3-105
3-32	Measured Average Levels of Water Quality Constituents versus the Numeric Water Quality Standards within the Project Area .....	3-108
3-33	Chloride Monitoring for Salt Creek and West Branch DuPage River.....	3-110
3-34	Streams Crossed by the Proposed Project in the Existing and Proposed Condition .....	3-113
3-35	Impervious Area and Detention Summary .....	3-117
3-36	Pollutant Loading Analysis Summary .....	3-118
3-37	Chloride Loading Analysis Summary .....	3-122
3-38	Designated 100-Year Floodplains within the Project Corridor .....	3-143
3-39	Proposed 100-Year Floodplain Impact Summary .....	3-145
3-40	Proposed 100-Year Floodplain and Floodway Impact Summary .....	3-147
3-41	Proposed 100-Year Floodway Impact Summary .....	3-149
3-42	Mapped Palustrine Wetlands .....	3-153
3-43	Acreage of Mapped Palustrine Wetland Types within the Des Plaines River Basin (HUC 07120004) .....	3-153
3-44	Summary of Wetland Types/Plant Communities within Project Corridor by Acreage and Watershed.....	3-154
3-45	Extent of Wetland Types/Plant Communities within Project Corridor.....	3-156
3-46	Summary of Potential Wetland Impacts by Watershed.....	3-163
3-47	Wetland Impact and Compensation Summary.....	3-172
3-48	Land Cover Mapped in the Project Corridor .....	3-178
3-49	Project Corridor Prairie Remnant Characteristics.....	3-181
3-50	Project Corridor Woodland Summary .....	3-182
3-51	Summary of First Tier Sites with RECs and DMCs by PESA Volume.....	3-212
3-52	Summary of Second Tier Sites Identified on Environmental Databases by PESA Volume.....	3-212
3-53	Summary of High Risk RECs by PESA Volume .....	3-214
3-54	Summary of Environmental Consequences of the Build Alternative.....	3-229
4-1	Stakeholder Opportunities: Project Initiation.....	4-7
4-2	Stakeholder Opportunities: Project Refinements.....	4-11
4-3	Stakeholder Opportunities: Development of Facility Type Alternates .....	4-12
4-4	Stakeholder Opportunities: Development of Interchange Type Alternates .....	4-13
4-5	Stakeholder Opportunities: Development of Other Roadway Features .....	4-15
4-6	Summary of Meetings/Discussions Regarding Wetland Mitigation and/or Water Quality Best Management Practices.....	4-17

## Figures

ES-1	Study Area
ES-2	Project Decision Makers
ES-3	Project Corridor
ES-4	Typical Cross-Section
ES-5	System Interchange Locations
ES-6	Local Access Interchange Locations and Intersection Improvements

- ES-7 Planned Frontage Roads
- ES-8 Planned Transit Stations
- ES-9 Conceptual Transit Station
- ES-10 Proposed Bicycle and Pedestrian System Improvements
- ES-11 Variable Messaging Sign
- ES-12 Tier Two Build Alternative Development Process
- ES-13 2040 Study Area Trips
- ES-14 Daily Vehicle Miles of Travel
- ES-15 Travel Time Savings
- ES-16 Annual Travel Delay Savings
- ES-17 Initial Construction Phase
  
- 2-1 Tier Two Build Alternative Development Process
- 2-2 Cross-over Transit Station Option
- 2-3 System Interchange Locations
- 2-4 Elgin O'Hare Corridor and I-290
- 2-5 Elgin O'Hare and West Bypass Corridors
- 2-6 West Bypass Corridor and I-90
- 2-7 West Bypass Corridor and I-294
- 2-8 Local Access Interchange Locations and Intersection Improvements
- 2-9 Alternate 3 - Elmhurst Road and I-90
- 2-10 Alternate 4 - Elmhurst Road and I-90
- 2-11 Planned Frontage Roads
- 2-12 Grade Separation
- 2-13 Bicycle and Pedestrian Cross-Section
- 2-14 Corridor Aesthetics Advisory Team Enhancement Options
- 2-15 2040 Study Area Trips
- 2-16 Daily Vehicle Miles of Travel
- 2-17 Travel Time Savings
- 2-18 Annual Travel Delay Savings
- 2-19 Initial Construction Phase
  
- 3-1 Residential Neighborhoods
- 3-2 Demographic Characteristics of Project Corridor
- 3-3 Aging Infrastructure West of O'Hare Airport
- 3-4 Redevelopment East of O'Hare Airport
- 3-5 Runway Protection Zone
- 3-6 Part 77 Imaginary Surfaces
- 3-7 Potential Utility Conflict Areas
- 3-8 Realigned Willow Creek in Vicinity of West Bypass Corridor at O'Hare Airport
- 3-9 Salt Creek South of Thorndale Avenue Looking Downstream (South)
- 3-10 Higgins Creek North of I-90 Looking Upstream (West)
- 3-11 Willow Creek South Tributary at Thorndale Avenue Looking Downstream (East)
- 3-12 York Road over Willow Creek, Center Channel
- 3-13 Percent of Total Wetland Area in Project Corridor
- 3-14 Emergent Wetland - Southwest of Existing Elgin-O'Hare Expressway & Meacham/Medinah Road
- 3-15 Forested Depression Wetland Adjacent to Thorndale Avenue

- 3-16 Percent of Total Land Cover within Project Corridor
- 3-17 Old Successional Field Located near Thorndale Avenue and Central Avenue
- 3-18 Closed Woodland at Northwest Corner of York Road and Thorndale Avenue
- 3-19 Aerial View of O'Hare Airport
- 3-20 West Bypass Corridor within OMP limits
- 3-21 Elgin-O'Hare Expressway
- 3-22 Thorndale Avenue
- 3-23 I-90
- 3-24 Green Street/Franklin Avenue
- 3-25 CAAT Enhancement Options
- 4-1 Project Study Group Organization Chart
- 4-2 External Working Group Structure
- 4-3 Public and Agency Coordination

### Exhibits

- 1-1 Study Area Map
- 1-2 Study Area Congested Roadways P.M. Peak Period (Year 2010)
- 1-3 Study Area Congested Roadways P.M. Peak Period (No-Build)
- 1-4 Issues Identified by Stakeholders
- 1-5 Travel Times from O'Hare West Terminal 2040 No-Build Scenario
- 1-6 Accessibility to/from Interchange Locations within Study Area
- 1-7 Interchange Locations and Major Railroad At-Grade Crossings
- 2-1 Tier One Selected Alternative 203D
- 2-2 Facility Type Alternates
- 2-3 Typical Roadway Cross-section
- 2-4A Interchange Type Study Areas
- 2-4B Interchange Type Study Alternate Evaluation - Area 1
- 2-4C Interchange Type Study Alternate Evaluation - Area 2
- 2-4D Interchange Type Study Alternate Evaluation - Area 3
- 2-4E Interchange Type Study Alternate Evaluation - Area 4
- 2-4F Interchange Type Study Alternate Evaluation - Area 5
- 2-4G Interchange Type Study Alternate Evaluation - Area 6
- 2-4H Interchange Type Study Alternate Evaluation - Area 7 Sub-area 1
- 2-4I Interchange Type Study Alternate Evaluation - Area 7 Sub-area 2
- 2-4J Interchange Type Study Alternate Evaluation - Area 7 Sub-area 3
- 2-4K Interchange Type Study Alternate Evaluation - Area 8
- 2-4L Interchange Type Study Alternate Evaluation - Area 9
- 2-5 Arterial Improvements
- 2-6 Typical Roadway and Transit Station Cross-section
- 2-7 Proposed Transit Improvements
- 2-8 No-Build Alternative
- 2-9 Build Alternative
- 2-10 IL 19 Intersection Improvements at Barrington Road and Wise Road
- 2-11 Intersection Alternates for IL 72 and Elmhurst Road
- 2-12 Potential Detention and Compensatory Storage Sites
- 2-13 Proposed Bicycle/Pedestrian System Improvements

- 3-1A Displacements
- 3-1B Alternate Displacements
- 3-2A Percentage of Non-White Population by Census Block
- 3-2B Percentage of Hispanic Population by Census Block
- 3-2C Percentage of Asian Population by Census Block
- 3-3 I-PASS Users Per Block Group
- 3-4 Major Employers
- 3-5 Future Land Use
- 3-6 Special Land Uses
- 3-7 West Bypass Location on O'Hare Airport
- 3-8 Property Ownership Along West Bypass
- 3-9 Runway 10L Approach Lighting Plan and Profile
- 3-10 Public Facilities and Services
- 3-11A Noise Receptors – Section A
- 3-11B Noise Receptors – Section A
- 3-11C Noise Receptors – Section B
- 3-11D Noise Receptors – Section C
- 3-11E Noise Receptors – Section C
- 3-11F Noise Receptors – Section C & D
- 3-11G Noise Receptors – Section D
- 3-11H Noise Receptors – Section D
- 3-11I Noise Receptors – Section E
- 3-11J Noise Receptors – Section E
- 3-11K Noise Receptors – Section E
- 3-11L Noise Receptors – Section E
- 3-11M Noise Receptors – Section F
- 3-11N Noise Receptors – Section F
- 3-11O Noise Receptors – Section F
- 3-12 Carbon Monoxide Screen for Intersection Modeling (COSIM) Prescreen Locations
- 3-13 Surface Water Resources
- 3-14 Highly Erodible Soils
- 3-15 Federal Aviation Administration Wildlife Hazard Separation Distances
- 3-16 100-Year Floodplains and Floodways
- 3-17 Wetlands
- 3-18 Mapped Land Cover
- 3-19 Field Identified Wooded Land and Prairie Areas
- 3-20 Vehicle/ Animal Collisions and Greenways
- 3-21 Natural Resources: Indirect and Cumulative Impacts
- 3-22 Resources Considered for Section 4(f) Applicability
- 3-23 Preliminary Environmental Site Assessment (PESA) Volumes

## Appendices

- A Elgin-O'Hare West Bypass Advisory Council: Final Report to Governor Pat Quinn
- B Correspondence
- C Facility Type Alternate Evaluation and Screening
- D 2040 Off-System Arterial Capacity Requirements

E	Location of Best Management Practices
F	Geographic Information System Source List
G	Property Tax Impacts
H	Noise
I	Air Quality Technical Report
J	Wetlands Summary and Potential Wetland/Surface Water Impact Exhibits
K	Water Quality Analysis
L	Wildlife Recorded Proximate to the Elgin O'Hare - West Bypass Project Corridor
M	Threatened and Endangered Species Investigation and Habitat Assessment
N	Glossary
O	Index
