Executive Summary	ES-1
1. Purpose of and Need for Improvements	1-1
1.1 Background	1-1
1.2 Transportation Purpose and Need	1-2
1.2.1 Regional and Local Travel.....	1-3
1.2.2 Travel Efficiency	1-5
1.2.3 Access to O’Hare Airport from the West	1-7
1.2.4 Modal Opportunities and Connections.....	1-8
2. Alternatives/Preferred Alternative	2-1
2.1 Alternatives Development Process.....	2-2
2.1.1 Facility Type Alternates.....	2-4
2.1.2 Design Alternates	2-6
2.2 Design Refinements since Tier Two Draft Environmental Impact Statement.....	2-18
2.2.1 I-294 Off-Ramp Location to County Line Road	2-18
2.2.2 Frontage Road Design between IL 83 and York Road	2-19
2.2.3 Internal Circulation Road in Hamilton Lakes’ Development	2-20
2.2.4 Intersection Design at IL 72 and Elmhurst Road	2-20
2.3 Description of the Alternatives	2-23
2.3.1 No-Build Alternative.....	2-23
2.3.2 Build Alternative	2-23
2.4 Comparison of Project Alternatives and Alternates.....	2-43
2.4.1 Build versus No-Build Alternative	2-43
2.4.2 Comparison of Design Alternates.....	2-46
2.5 Identification of Preferred Alternative and Alternates.....	2-48
2.6 Implementation	2-49
3. Environmental Resources, Impacts, and Mitigation	3-1
3.1 Social Characteristics	3-2
3.1.1 Affected Environment.....	3-3
3.1.2 Environmental Consequences	3-6
3.2 Economic Conditions.....	3-12
3.2.1 Affected Environment.....	3-12
3.2.2 Environmental Consequences	3-14
3.2.3 Indirect and Cumulative Economic Impacts	3-25
3.2.4 Measures to Minimize Harm and Mitigation.....	3-33
3.3 Land Use.....	3-35
3.3.1 Affected Environment.....	3-35
3.3.2 Environmental Consequences	3-36
3.3.3 Indirect and Cumulative Land Use Impacts.....	3-42
3.3.4 Measures to Minimize Harm and Mitigation.....	3-42

3.4	Special Land Uses	3-42
3.4.1	O'Hare Airport	3-42
3.4.2	Bensenville Yard.....	3-54
3.4.3	Metropolitan Water Reclamation District of Greater Chicago Flood Storage Reservoirs	3-56
3.4.4	WBBM/CBS AM Radio Towers.....	3-57
3.5	Public Facilities and Services	3-58
3.5.1	Affected Environment.....	3-58
3.5.2	Environmental Consequences.....	3-61
3.5.3	Construction Impacts	3-65
3.5.4	Measures to Minimize Harm and Mitigation	3-65
3.6	Agriculture.....	3-66
3.7	Cultural Resources.....	3-66
3.8	Noise.....	3-67
3.8.1	Affected Environment.....	3-67
3.8.2	Environmental Consequences.....	3-69
3.8.3	Measures to Minimize Harm and Mitigation	3-71
3.9	Air Quality	3-84
3.9.1	Affected Environment.....	3-84
3.9.2	Environmental Consequences.....	3-85
3.9.3	Measures to Minimize Harm and Mitigation	3-94
3.10	Water Resources and Aquatic Habitats.....	3-95
3.10.1	Affected Environment.....	3-95
3.10.2	Environmental Consequences.....	3-113
3.10.3	Measures to Minimize Harm and Mitigation	3-128
3.10.4	Indirect and Cumulative Water Resource Impacts	3-136
3.11	Groundwater	3-140
3.11.1	Affected Environment	3-140
3.11.2	Environmental Consequences.....	3-143
3.11.3	Measures to Minimize Harm and Mitigation	3-144
3.12	Floodplains	3-144
3.12.1	Affected Environment	3-144
3.12.2	Environmental Consequences.....	3-147
3.12.3	Measures to Minimize Harm and Mitigation	3-153
3.13	Wetlands	3-155
3.13.1	Affected Environment	3-155
3.13.2	Environmental Consequences.....	3-165
3.13.3	Measures to Minimize Harm and Mitigation	3-169
3.13.4	Indirect and Cumulative Wetland Impacts.....	3-179
3.14	Natural Resources.....	3-181
3.14.1	Affected Environment	3-181
3.14.2	Environmental Consequences.....	3-194
3.14.3	Measures to Minimize Harm and Mitigation	3-202
3.14.4	Indirect and Cumulative Natural Resource Impacts	3-207
3.15	Section 4(f)	3-208
3.15.1	Affected Environment	3-210
3.15.2	Environmental Consequences.....	3-211

3.15.3	Application of Section 4(f).....	3-212
3.16	Special Waste	3-214
3.16.1	Affected Environment.....	3-214
3.16.2	Environmental Consequences	3-216
3.16.3	Measures to Minimize Harm and Mitigation.....	3-220
3.17	Visual Resources.....	3-220
3.17.1	Affected Environment.....	3-221
3.17.2	Environmental Consequences	3-222
3.17.3	Measures to Minimize Harm and Mitigation.....	3-223
3.18	Short-Term Use and Long-Term Productivity	3-224
3.19	Irreversible and Irrecoverable Commitment of Resources.....	3-225
3.20	Permits and Approvals.....	3-225
3.20.1	Section 404 of the Clean Water Act.....	3-226
3.20.2	Section 401 of the Clean Water Act.....	3-226
3.20.3	Soil and Water Conservation District Review of Erosion and Sedimentation Control Plans	3-227
3.20.4	National Pollutant Discharge Elimination System Construction Permit	3-227
3.20.5	General National Pollutant Discharge Elimination System Permit for Pesticide Application Point Source Discharges.....	3-227
3.20.6	Floodway and Floodplain Construction Permits.....	3-227
3.20.7	Interagency Wetland Policy Act-Related Approval	3-228
3.20.8	Compliance with Federal Aviation Administration Advisory Circular Number 150/5200-33B, <i>Hazardous Wildlife Attractants on or near Airports</i>	3-228
3.20.9	Federal Aviation Administration Concurrent Land Use Approval	3-228
3.20.10	O'Hare Airport Layout Plan Update	3-228
3.20.11	Federal Aviation Administration 7460 Review	3-229
3.20.12	Interagency Memorandum of Understanding for the Conversion of a Freeway to Toll Road	3-229
3.20.13	Federal Highway Administration Access Justification Report.....	3-229
3.21	Environmental Commitments.....	3-230
3.21.1	Mitigation for Impacts to Natural Resources	3-230
3.21.2	Noise.....	3-234
3.21.3	Air Quality.....	3-234
3.21.4	Traffic and Access Management	3-235
3.21.5	Sustainability	3-235
3.21.6	Special Use.....	3-235
3.21.7	Aviation	3-235
3.21.8	Residential and Business Relocation.....	3-236
3.21.9	Alternative Transportation Modes.....	3-236
3.21.10	Aesthetics.....	3-236
3.21.11	Tree Replacement	3-236
3.21.12	Special Waste.....	3-237
3.22	Summary of Environmental Consequences	3-237

4. Agency Coordination and Public Involvement 4-1

4.1 Public and Agency Coordination Requirements and Communication Strategy.... 4-1

4.1.1 Legal Requirements 4-1

4.1.2 Objectives 4-2

4.1.3 Outreach Methods 4-2

4.2 Public and Agency Coordination 4-5

4.2.1 Project Initiation 4-5

4.2.2 Purpose and Need Development..... 4-10

4.2.3 Identification of the Range of Alternatives to be Considered..... 4-11

4.2.4 Identification of the Preferred Alternative 4-16

4.2.5 Other Coordination..... 4-17

5. References 5-1

6. List of Preparers 6-1

7. Final Environmental Impact Statement Distribution List..... 7-1

Tables

ES-1 Summary of Environmental Consequences of the Build Alternative ES-10

ES-2 Comparison of Interchange Alternates at Elmhurst Road and I-90..... ES-11

ES-3 Comparison of Intersection Alternates at IL 72 and Elmhurst Road..... ES-12

1-1 Technical and Stakeholder Problem Statements 1-2

1-2 Study Area Daily Trips by Trip Origin and Destination: 2010 and 2040 1-4

1-3 Traffic Congestion P.M. Peak Period: 2010 and 2040 1-5

1-4 Travel Time/Speed from the West Side of O'Hare Airport to Study Area
Locations 1-6

2-1 Local Cross Roads 2-9

2-2 Transit Corridor Pros and Cons Analysis 2-13

2-3 New Frontage Roads 2-32

2-4 Transit Parking and Access 2-36

2-5 TSM and TDM Strategies..... 2-40

2-6 Build Alternative Travel Performance Compared to No-Build Alternative 2-44

2-7 Comparison of Percent of Daily Congested Vehicle Miles of Travel for No-Build
and Build Alternatives 2-45

2-8 Comparison of Interchange Alternates at Elmhurst Road and I-90..... 2-47

2-9 Comparison of Intersection Alternates at IL 72 and Elmhurst Road..... 2-48

3-1 Population Changes Over Time in the Affected Communities and Counties 3-3

3-2 2005-2009 Income Characteristics of the Project Area 3-5

3-3 Comparison of the Demographics of the Core Communities in the EO-WB
Project Area to DuPage and Cook Counties and the State of Illinois 3-7

3-4 Demographic Characteristics of the Project Corridor..... 3-9

3-5 2005-2009 Income Characteristics of the Project Corridor 3-10

3-6 Employment by Industry for the Seven-County Chicagoland Region 3-12

3-7	Percent of Civilian Workforce Unemployed	3-13
3-8	Business and Employee Displacements along the Build Alternative	3-15
3-9	Other Business Impacts	3-19
3-10	Land Use within Proposed Right-of-Way	3-20
3-11	Tier One Analysis of Economic Impacts during Construction Period.....	3-22
3-12	Economic Impacts (2010 dollars).....	3-24
3-13	Cumulative Economic Impacts (2010 dollars).....	3-27
3-14	Long-Term Economic Impacts for the Project Area	3-28
3-15	Net Long-Term Economic Impacts by Community (2040).....	3-31
3-16	Tax Revenue Impacts by Community	3-32
3-17	Annual Vehicle Operation Savings, Build Alternative	3-33
3-18	School Districts Serving the Project Corridor.....	3-60
3-19	Noise Abatement Criteria.....	3-67
3-20	Common Noise Environments	3-70
3-21	Cost per Benefited Receptor Adjustment Factors	3-72
3-22	Summary of Proposed Noise Mitigation: Barrier Descriptions	3-74
3-23	Summary of Barrier Cost Reasonableness Analysis	3-75
3-24	Results of the Viewpoint Solicitation Activity	3-77
3-25	Annual PM _{2.5} Design Value Concentrations in µg/m ³	3-88
3-26	Daily Project Area MSAT Emissions in Pounds per Day	3-90
3-27	Annual Project GHG Emissions in Million Metric Tons CO ₂ Equivalent per Year.....	3-92
3-28	Watershed Land Use Summary.....	3-95
3-29	Project Corridor Water Body Summary	3-97
3-30	Summary of the Physical Parameters of Project Corridor Creeks.....	3-100
3-31	Summary of the Biological Characteristics of Project Corridor Creeks.....	3-101
3-32	Use Support and Impairment Summary for Project Corridor Water Bodies.....	3-105
3-33	Urban Stormwater Runoff Quality for TSS and Metals	3-110
3-34	Measured Levels of Water Quality Constituents versus the Numeric Water Quality Standards within the Project Area	3-110
3-35	Chloride Monitoring for Salt Creek and West Branch DuPage River.....	3-112
3-36	Streams Crossed by the Proposed Project in the Existing and Proposed Condition	3-115
3-37	Impervious Area and Detention Summary	3-119
3-38	Pollutant Loading Analysis Summary	3-121
3-39	Chloride Loading Analysis Summary	3-124
3-40	Designated 100-Year Floodplains within the Project Corridor	3-146
3-41	Proposed 100-Year Floodplain Impact Summary	3-147
3-42	Proposed 100-Year Floodplain and Regulatory Floodway Encroachment Summary.....	3-149
3-43	Proposed 100-Year Floodway Impact Summary	3-151
3-44	Mapped Palustrine Wetlands	3-155
3-45	Acreage of Mapped Palustrine Wetland Types within the Des Plaines River Basin (HUC 07120004)	3-156
3-46	Summary of Wetland Types/Plant Communities within Project Corridor by Acreage and Watershed.....	3-157
3-47	Extent of Wetland Types/Plant Communities within Project Corridor.....	3-159

3-48	Summary of Potential Wetland Impacts by Watershed	3-166
3-49	Wetland Impact and Compensation Summary	3-174
3-50	Land Cover Mapped in the Project Corridor	3-182
3-51	Project Corridor Prairie Remnant Characteristics	3-185
3-52	Project Corridor Woodland Summary	3-186
3-53	Summary of First Tier Sites with RECs and DMCs by PESA Volume	3-217
3-54	Summary of Second Tier Sites Identified on Environmental Databases by PESA Volume	3-217
3-55	Summary of High Risk RECs by PESA Volume.....	3-219
3-56	Summary of Environmental Consequences of the Build Alternative	3-237
4-1	Stakeholder Opportunities: Project Initiation	4-7
4-2	Stakeholder Opportunities: Project Refinements	4-11
4-3	Stakeholder Opportunities: Development of Facility Type Alternates.....	4-12
4-4	Stakeholder Opportunities: Development of Interchange Type Alternates.....	4-13
4-5	Stakeholder Opportunities: Development of Other Roadway Features.....	4-15
4-6	Summary of Meetings/Discussions Regarding Wetland Mitigation and/or Water Quality Best Management Practices	4-18

Figures

ES-1	Tier Two Schedule
ES-2	I-294 Off-Ramp and County Line Road
ES-3	Frontage Road Between IL 83 and Supreme Drive
ES-4	Internal Circulation Road in Hamilton Lakes' Development
ES-5	Quadrant Bypass (Old Higgins Road) Alternate
ES-6	Quadrant Bypass (Greenleaf Avenue) Alternate
ES-7	Preferred Alternative
2-1	Tier Two Build Alternative Development Process
2-2	Cross-over Transit Station Option
2-3	I-294 Off-Ramp and County Line Road
2-4	Frontage Road Between IL 83 and Supreme Drive
2-5	Internal Circulation Road in Hamilton Lakes' Development
2-6	Quadrant Bypass (Old Higgins Road) Alternate
2-7	Quadrant Bypass (Greenleaf Avenue) Alternate
2-8	System Interchange Locations
2-9	Elgin O'Hare Corridor and I-290
2-10	Elgin O'Hare and West Bypass Corridors
2-11	West Bypass Corridor and I-90
2-12	West Bypass Corridor and I-294
2-13	Local Access Interchange Locations and Intersection Improvements
2-14	Alternate 4 - Elmhurst Road and I-90
2-15	Planned Frontage Roads
2-16	Grade Separation
2-17	Bicycle and Pedestrian Cross-Section
2-18	Corridor Aesthetics Advisory Team Enhancement Options
2-19	Travel Time Savings
2-20	Annual Travel Delay Savings

- 3-1 Residential Neighborhoods
- 3-2 Demographic Characteristics of Project Corridor
- 3-3 Aging Infrastructure West of O'Hare Airport
- 3-4 Redevelopment East of O'Hare Airport
- 3-5 Runway Protection Zone
- 3-6 Part 77 Imaginary Surfaces
- 3-7 Potential Utility Conflict Areas
- 3-8 Realigned Willow Creek West Bypass Corridor at O'Hare Airport
- 3-9 Salt Creek South of Thorndale Avenue Looking Downstream (South)
- 3-10 Higgins Creek North of I-90 Looking Upstream (West)
- 3-11 Willow Creek South Tributary at Thorndale Avenue Looking Downstream (East)
- 3-12 York Road over Willow Creek, Center Channel
- 3-13 Percent of Total Wetland Area in Project Corridor
- 3-14 Emergent Wetland - Southwest of Elgin-O'Hare Expressway & Meacham/Medinah Road
- 3-15 Forested Depression Wetland Adjacent to Thorndale Avenue
- 3-16 Percent of Total Land Cover within Project Corridor
- 3-17 Old Successional Field Located near Thorndale Avenue and Central Avenue
- 3-18 Closed Woodland at Northwest Corner of York Road and Thorndale Avenue
- 3-19 Aerial View of O'Hare Airport
- 3-20 West Bypass Corridor within OMP limits
- 3-21 Existing Bridge at I-90 and Higgins Creek Looking Upstream
- 3-22 Elgin-O'Hare Expressway
- 3-23 Thorndale Avenue
- 3-24 I-90
- 3-25 Green Street/Franklin Avenue
- 3-26 Corridor Aesthetics Advisory Team Enhancement Options
- 4-1 Project Study Group Organization Chart
- 4-2 External Working Group Structure
- 4-3 Public and Agency Coordination

Exhibits

- 1-1 Study Area Map
- 1-2 Study Area Congested Roadways P.M. Peak Period (Year 2010)
- 1-3 Study Area Congested Roadways P.M. Peak Period (No-Build)
- 1-4 Issues Identified by Stakeholders
- 1-5 Travel Times from O'Hare West Terminal 2040 No-Build Scenario
- 1-6 Accessibility to/from Interchange Locations within Study Area
- 1-7 Interchange Locations and Major Railroad At-Grade Crossings
- 2-1 Tier One Selected Alternative 203D
- 2-2 Facility Type Alternates
- 2-3 Typical Roadway Cross-section
- 2-4A Interchange Type Study Areas
- 2-4B Interchange Type Study Alternate Evaluation - Area 1
- 2-4C Interchange Type Study Alternate Evaluation - Area 2
- 2-4D Interchange Type Study Alternate Evaluation - Area 3
